8 PAGES TODAY.

COAL NEEDS FOR WEEK ARE ASSURED

Average of One Car a Day is Main-
tained and at Least Three More
Are Expected

TWO OTHERS ARE ON THE WAY

Moderation in Temperature Will be
Short-Lived as Another Cold
Wave is Coming

There will be no suffering from the lack of fuel in Rushville this week, in the opinion of County Fuel Administrator S. L. Trabue, because an average of a car of coal a day has been maintained so far and is likely to keep up the remainder of the week.

Rushville was so flushed with coal today that the fuel administrator allowed a car billed to a dealer here to go to Manilla, which is in dire straits, without a lump of coal in town.

The fuel administrator decided to let Manilla have one of two cars coming over the Pennsylvania to a local dealer because Manilla so far has taken care of itself and has not had a single car of fuel administration coal. Manilla is ordering a car and when it arrives it will be transferred to the dealer here. A car coming over the Pennsylvania was taken because that railroad passes through Manilla and no extra shipping would be required.

Hopes based on today's bright sun and rising temperature are recalled by the weather forecast for tomorrow "colder with cold wave." In addition to this, snow is predicted. Weather conditions today are the best, however, they have been for several days. Nine above zero was last night's lowest temperature and this morning the thermometer registered 14 above zero. Last evening, the temperature was 12 above zero.

Other towns in the county are in fair condition as regards the coal situation, according to reports reaching the fuel administration. Falmouth has received three cars in the last few days and one was shipped to Sexton Jan. 25.

John P. Frazee received another car of fuel administration coal this morning and is expecting two more this week. Dan Matlock is anticipating the arrival of one car at any time and Will Trennepohl will likely get two in a few days.

The fuel administrator received encouraging word from Indianapolis when R. L. Flood, in charge of distribution of coal in the office of the state fuel administrator, said over the telephone that Indiana mines were turning out more coal now than they had been at any time since the blizzard of two weeks ago last Friday swept the state.

U. S. AMBASSADOR TO BE HELD RESPONSIBLE

Russian Anarchists Make Threat if
Sentence is Imposed on Berk-
man and Goldman

Petrograd, Jan. 30.—An ultimatum declaring that the American ambassador "would be held responsible for life and liberty of Alexander Berkman," was forwarded to David Francis by the anarchist group of sailors and workmen at Atlingfors today.

The Russian terrorists have been deeply interested in the prosecution in the United States of Berkman and Emma Goldman, the two American anarchist leaders convicted for conspiracy to defeat the conscription law.

Washington, Jan. 30.—The anarchist threat to hold U. S. Ambassador Francis at Petrograd responsible for the life and liberty of Alexander Berkman, is confirmed in official dispatches.

DRAFT AGREEMENT REACHED

British and Canadians in United
States May be Conscripted

(By United Press.)

Washington, Jan. 30.—Great Britain and Canada have agreed that the United States may draft their men in this country into the army. Secretary Lansing announced today. Lansing reported that Englishmen and Canadians of military age are to be given a specified time to return to their own country for service and if they do not return they will be subject to draft in the American army.

ATTENDS MEETING OF STATE GROCERS

L. L. Allen Represents Rush County
Dealers at Meeting With Food
Administrator

HELD IN INDIANAPOLIS TODAY

Steps Planned to Fix Prices of 15
Staple Articles of Food—Prices
to be Published

L. L. Allen, representing Rush county grocers, went to Indianapolis today to attend the conference of grocers of the state, called by H. E. Barnard, federal food administrator for Indiana, to consider steps for fixing prices on staple articles of food. Mr. Allen was elected to represent Rush county grocers at a meeting held here a few weeks ago. It has been planned to issue a daily bulletin on what various food-stuffs should sell for and with this published in practically every community in the state, consumers would be warned not to buy articles unless they were offered for sale at the stipulated prices.

Fifteen staple articles of food were considered as subject to price fixing.

The published prices shall govern both the retail and wholesale trade. The wholesale distribution is now regulated by federal license to the wholesale dealers.

The prices on various articles will be judged according to the general supply, demand, and allowing a just profit for the producer and dealer.

The estate food administration will have charge of setting of all prices and this authority will be delegated to county food administrators in most cases. The county administrators will co-operate with the producers and dealers in their territory in an effort to arrive at an equitable price.

INCOME TAX MAN TO BE AT POSTOFFICE

Word Received From Harry P. Euler
That he Will be Ready Feb.
1 to Aid Taxpayers

MUST HAVE RECORDS READY

Harry P. Euler, income tax inspector, will be at the local postoffice for several days beginning February first, according to the letter received from him by Postmaster G. P. Hunt today. He will establish a temporary office in the postoffice where persons may consult him about the income tax and he will assist them in filling out their return blanks. A good supply of blanks will be at the office so persons wishing assistance need not bring them.

Mr. Euler wished to call attention of the farmers to the fact that before coming to the office they should have a record of their cash receipts for the year and their expenses. By so doing, they will save time for themselves and the tax inspector as well. His office will probably be established in the carrier's lobby at the postoffice.

To the People of Rush County

Two million of the finest young men of the United States will soon be marching in France, step by step with the other millions of brave soldiers of the allies, associated with us in this great war for Freedom and Justice.

In a recent message from General Pershing, commanding the American forces in France, to Secretary of War Baker, he declares that no similar body of men ever lived as clean lives, as are our army there. He further says, they live so realizing their obligation to their people, their friends and their Country.

This clean-living army, will soon number among its ranks, if it does not already, some one or more, whose welfare is dearer to you and I, than anything else on earth.

It is our first duty, our highest obligation, to supply the needs of our own army over there, and also as far as possible, our associates in the war.

The regulations lately issued by Mr. Hoover and his corps of able food experts, call for greater self-denial on our part than heretofore. These further sacrifices are only asked of us due to the hard necessities of war. Now, as liberty loving citizens of this great Republic, let us cheerfully and heroically comply, and by precept and example, urge and influence our friends and neighbors to do likewise.

M. F. LOVETT,
Federal Food Administrator.

January 30, 1918.

LETTER FROM RUTH DILLON IN FRANCE

Interesting Account of Sea Voyage
of Lilly Hospital Unit Written
To Her Sister

CAUGHT IN STORM AT SEA

Mrs. Charles Sharp of 628 West Third street has received a letter from her sister, Miss Ruth Dillon, who is with the Lilly Base Hospital in France. Miss Dillon has been in Indianapolis for some time as a trained nurse. On her enlistment papers, however, she gave her home as Rushville.

The letter was very interesting from start to finish. She told of a storm at sea which made the ship sway so that the dishes fell from the table onto their laps. Other incidents of the trip and their safe arrival were told by Miss Dillon, who is well known in this city. Miss Hazel Bennett, Neff Ashworth and Russell Kirkpatrick, all of this city, are with the unit.

CALLS RUSH COUNTY CAMPAIGN A HUMMER

Executive Secretary of Anti-Tuber-
culosis Society Compliments Red
Cross Seal Sales Here

EXPENSES WERE VERY LOW

That the Rush county Red Cross seal campaign was a "hummer" is the opinion of Arthur J. Strawson, executive secretary of the Indiana Anti-Tuberculosis society, in his letter to Dr. W. S. Coleman, county chairman of the society. His letter reads:

"One glance at the perfectly splendid report you have submitted shows us that it has been successful. We think that your sale over the county as well as in the city of Rushville must have been a 'hummer.' We notice that you have increased more than three times over your sale of 1916 although of course this society derived some benefit in 1916 from those parts of the county which you could not reach. It is amazing how inexpensively your campaign has been conducted."

Rush county's sale netted \$427, more than three times the amount of last year. Of this amount, \$339.25 was procured in Rushville alone. No efforts were spared by the members of Psi Iota Xi, who have had charge of the sales for several years, to make the campaign a success. Carthage shows the best record of any of the other towns of the county aside from Rushville, with the sales amounting to \$42.27. Milroy came next with a fund of over \$27.

OVER 50 HAVE BEEN VACCINATED HERE

Thirty-Five Children in Washington
School Treated, Besides a
Number of Others

NEW CASE OF DIPHTHERIA

Between 50 and 60 persons have been vaccinated within the past two days. About thirty-five of these were children in the Washington school. All of the colored children have been vaccinated as well as all other persons who have been in any exposed to smallpox. With these careful precautions it is hoped the disease will not spread.

One new case of diphtheria was reported last night. It was that of Miss Theresa Reardon, daughter of Mr. and Mrs. John Reardon of West First street. The diphtheria epidemic had been practically wiped out with the exception of the case of Miss Dorothy Brecheisen who is recovering from the disease.

TWENTY TWO MEN ARE FOUND PHYSICALLY FIT

Result of Two Days Examinations
Brings Total Ready to be In-
ducted Into Army To 87

SIX REGISTRANTS REJECTED

Results of the medical examination of registrants Monday and Tuesday will be found on page seven of today's issue.

Reports on the medical examination of registrants for the national army by Dr. W. S. Coleman were received today by the county army selection board, showing twenty passed and ready to be inducted into the army, six rejected and one held for limited service. Some called on these two days failed to report and others appealed to the medical advisory board, which meets only one day a week to take up all cases coming before it.

With the twenty-two passed so far this week, there are now eighty-seven men ready to be inducted into the army. Counting the one reported today, there are six held for limited service. Dr. Coleman was examining a group of registrants and still another set is called for tomorrow. Calls have also been issued for examinations next Tuesday and Wednesday.

—Mrs. Glen Moor was a visitor in Indianapolis today.

—Ed Lee made a business visit in Indianapolis today.

I. & C. SCHEDULE RESUMED

During Severe Weather Only Local
Cars Running

The regular schedule will be resumed on the I. and C. traction line beginning tomorrow, including freight and passenger cars which will run on time. The service has necessarily been impaired since two weeks ago last Friday when the blizzard started. The heavy snows and severe weather have affected the lines so that only local cars have been running. The news that the regular schedule will be resumed will be received gladly by patrons of the road over the entire county.

COAL SHOVELS TAGGED TODAY

School Children of Indiana Make
Drive on Kaiser by Passing
Tags for Coal Conservation

700,000 AT WORK IN STATE

Tags Bear Practical Suggestions As
to How The Shovelful Might Be
Saved for Uncle Sam

Indiana's school children, an army of more than 700,000, have made a drive on the kaiser today, by tagging every coal shovel in each school locality. The campaign in the local schools has not been confined to one day but several weeks ago, tags were distributed among the pupils to take home and attach to the coal shovel. In addition to this, children have taken tags to many of the remaining homes of the city, with the request that they be tied on the coal shovel.

The tags bear on appeal to "Save that shovelful of coal a day for Uncle Sam." On one side are practical suggestions as to how the shovelful and more might be saved, such as to cover the furnace with asbestos; to keep the rooms at 68 degrees; to heat only the rooms in use; to test ashes by sifting and if they contain too much coal get the heater fixed; get suggestions from the stove manufacturers on the most economical way to fire; save gas and electric light.

Hotels over the country have taken up the fuel conservation measures by posting placards in the rooms urging the guests to save electric light; not to waste hot water (which takes coal to heat it); not to let the room get overheated.

Other posters read, "You can fight the German Zep in a most effective way by practicing and preaching coal conservation. You know there are those disposed to complain when the least inconvenience is encountered. Your part in the fight is to show such persons that they are making no sacrifice comparable to the sacrifice of the men who are giving up business, home and life itself to protect us. Our government needs coal to win."

2 ENEMY DIVISIONS ARE ANNIHILATED

Italians Announce Capture of Large
Amount of Booty, 100 Officers
And 2,500 Men

BERLIN ADMITS ENEMY GAINS

London, Jan. 30.—Two enemy divisions were annihilated by the Italians in the fighting around Coldel-
roffo, the Italian official statement today declared.

The Italians took booty, it is declared, amounting to 6 big guns, a hundred machine guns and several thousand rifles, more than a hundred officers and 2,500 men taken prisoners.

The Berlin statement admitted Italian gains.

BERLIN STRIKE GROWING HOURLY

One Report Puts Number at 40,000
and Another at 75,000 With
Hundreds Joining Each Hour

SMALL TOWNS ARE AFFECTED

Workmen's Council of 500 Formed in
Berlin—Disaffection Reported
on East Front

(By United Press.)

Copenhagen, Jan. 30.—The Berlin strike is growing hourly. The movement is spreading to provincial towns.

Danzig and Hamburg are now affected. In Berlin a workmen's council of 500 has been formed. This information came today in dispatches from Berlin.

Rumors were circulated here today that German soldiers shot some of their officers on the eastern front. It was also reported there were disturbances among sailors of the German fleet at Keil.

All labor meetings have been prevented.

The German majority socialist leader, with Dr. Haaf, leader of the independent socialists, told of the formation of the workmen's council and demanded that negotiation in relation to the strike be held in the presence of the workmen.

The number of Berlin strikers has been estimated at 40,000. Another put the total number at 75,000. The first message declared hundreds were joining hourly.

It is of tremendous significance that the majority socialist leaders have joined with the minority leaders. For the first time the two factions of the party have been united.

BRITISH TRANSPORT, 2,000 ABOARD, SUNK

Admiralty Announces Sinking of Ar-
agon Dec. 30, Osmaning Dec.
31—Ninth Since War Began

TOTAL LOSS OF LIFE IS 9000

(By United Press.)

London, Jan. 30.—The British transport Aragon carrying 2,000 men was torpedoed and sunk in the eastern Mediterranean on Dec. 30 with a loss of 610 men, the admiralty announced today. A destroyer rescuing survivors was also torpedoed.

Sinking of the Osmaning carrying 800 men also was announced as having occurred Dec. 31.

In the same statement announcing of this disaster, the admiralty announced that since the start of the war 9 British transports had been sunk and 9,000 lives lost. During the same period 11,000,000 soldiers had been transported.

LOST FOR WANT OF SECOND

Resolution Commending Baker Fails
in State Defense Body

(By United Press.)

Indianapolis, Ind., Jan. 30.—A resolution introduced at today's meeting of the State Council of Defense expressing confidence in Secretary of War Baker was declared lost by Chairman Hays because no one saw fit to second the motion for its passage. It was decided to revert the resolution to a committee.

\$7,000 FIRE AT MUNCIE

(By United Press.)

Muncie, Ind., Jan. 30.—Fire originating from an overheated stove in the office of the Kirby-Wood Lumber company entailed the loss early today of \$7,000. The door and sash department is a complete loss and other departments of the plant were badly damaged.

RECEIPTS OF THRIFT STAMPS CLIMB FAST

Yesterday Was Banner Day at Local
Office With Sales Amounting
to Sum of \$600

ONE CARRIER SELLS \$300

Yesterday was one of the banner days at the postoffice and on the rural routes for the sale of Thrift stamps and war certificates. The sales of the one day alone totalled about \$600. Of this amount, the carrier on route 10 sold three hundred dollars worth to three parties and sold one more of the hundred dollar certificates today. Farmers are taking up with this method of saving enthusiastically. Purchasing the stamps from their carriers is a great convenience for farmers.

Postmaster Hunt stated this morning that the local office must be doing as well as headquarters expected them to do for they ran out of war certificates today. A new supply was ordered and will be ready for sale tomorrow morning. Thirty-two of the purchasers of Thrift stamps have registered. This is not necessary but protects the owner in case the stamps might be lost.

Manilla has the best record of any office in the county with the exception of the local one. Three one hundred dollar certificates were registered here today that had been purchased there. Although indications were several days ago that this month would go behind December in receipts from the Thrift stamps sales because of the bad weather, the sales of the past few days will possibly bring January up to and perhaps surpass December's record of \$2,500.

For Tired Women

With Aching Heads

"They help me so much and I find relief as soon as I begin taking your Foley Kidney Pills." Mrs. Frank P. Wood, Morrill, Maine, R. F. D. No. 2. Sometimes it seems as if you can't stand the pain across your back. It is just making your life miserable and robbing you of all energy and strength. When you are constantly tired, head always aching, nerves "on edge," kidney action painful and burning, then is the time to start in at once on Foley Kidney Pills. They strengthen the weak, ailing kidneys, improve their action, enable them to throw off the poisons that cause your trouble. Your nerves grow peaceful, sleep becomes sounder, nervous headaches disappear. As Mrs. Wood says: "I find relief as soon as I begin to take your Foley Kidney Pills." Be sure you get the genuine Foley Kidney Pills, for they are purely medicinal and contain no harmful drugs.

F. B. Johnson.

HAWAIIAN SITS IN CONGRESS

Prince Kalaniana'ole, congressional delegate from Hawaii, states that Hawaiians run fairly close to the American type. The prince has royal blood coursing through his veins. He is popular in congress and is called Prince Killarney by other members. He draws a congressman's pay. His chief duties are keeping government seeds, pensions and bulletins going to his Hawaiian constituents.

THE MORNING

By FOLGER M'KINSEY.
I'm glad they made the morning
and sent the morning here
To lift us with its laughter and swing
us in its cheer.

The fresh and dancing morning,
When souls go forth to fight
With joy for the song of the bugles,
And love for the lilt of light.

I'm glad they made the morning, and
called it morning, too.
With its sunshine full of splendor in
a sky so full of blue.
The young, green spirit of it,
The bubble and the bloom,
With our hearts awake to love it,
And souls to doff their gloom.

I'm glad they made the morning and
sent it down to earth
To make a path of beauty for feet to
tread in mirth.

The fair and dewy morning,
The fresh and the sparkling day—
With love in the lilt of the trumpets,
As brave hearts face the fray.
—Baltimore Sun.

Electrically Controlled Boat Was the Invention of John Hays Hammond

Recently cables from England made brief mention of the "electrically controlled high speed boat" which, it was announced the enemy was operating off the coast of Flanders. A veil of mystery was thrown over the new vessel and naturally curiosity on this side of the Atlantic was heightened by the lack of detail in the messages announcing the new craft. One satisfactory feature of the announcement was the fact that it apparently proved a failure at its first trial.

There is, however, nothing new in the electrically controlled boat for such a vessel was given a thorough and successful trial in 1914 in Gloucester bay along the shores of Massachusetts, observes a writer. The strange craft was the invention of John Hays Hammond, son of the famous American mining engineer. It was controlled by wireless waves from the shore and was designed to carry a high explosive charge.

Mr. Hammond's invention was in fact a torpedo which could be controlled from the shore resembling in this respect the old Brennan torpedo, which was employed in the British coast defenses 20 years ago and was steered and driven by thin wires running over drums in the torpedo and actuating the screws when the wires were wound in by an engine ashore.

Feathered Night Fishes.

One of the most remarkable instances of phosphorescent light appearing on living creatures is found among the herons. Among the quays and at the extreme end of Florida these birds are found in countless numbers. Mullet fishermen and sportsmen often noticed peculiar dim lights standing motionless over the water among the mangrove thickets. They were discovered however, to depend on the presence of the birds. When they were approached in the dark the flapping of wings as a heron flew away would mean the last of the lights. The Adrea Herodias, or great heron, has on its breast a spot about as large as the open palm, where the feathers are covered with a thick yellow powder that is easily shaken off, and evidently exudes from the body at this spot as a secretion, drying into a powder when exposed to the air. The bird stands motionless in the water, and the spot is undoubtedly used for or accomplishes the end of attracting the smaller fishes within reach of the bird.

THE HOME SET

PUBLIC SALE

I, the undersigned, will sell at public sale, at my residence, one and a half miles north of Rushville, on the farm known as the Amos Blackledge farm,

MONDAY, FEBRUARY, 4th, 1918

SALE TO COMMENCE AT 12:30 P. M.

If weather is inclement sale will be held under cover.

The following described property:

6 Head of Horses 6

1 black draft mare, black, coming 6 years old, weight about 1400 pounds, a splendid mare, an extra good worker; 1 draft mare, bay, weight about 1600 pounds, an extra good mare, can't be hitched wrong. These two draft mares have been worked together and are a first class team; 1 sorrel mare, a fine worker and good brood mare, weight about 1200 pounds; 1 gray horse, a good all around general purpose horse; 1 bay mare, a regular family mare, good worker and is a first class animal; 1 coming two-year-old draft filly, halter broke.

1 FRESH EXTRA GOOD JERSEY COW
3 HEIFER CALVES — GOOD MILK STOCK

FARMING IMPLEMENTS—Consisting of two farm wagons, yard and a half gravel bed, manure spreader, double disc harrow, 2 walking break plows, 2 corn cultivators, a one-horse wheat drill, sulky hay rake, a two-horse corn planter, a five-foot mowing machine, an extra good steel roller, field drag, and five sets of work harness, 1 set of buggy harness and other articles which space does not permit.

TERMS OF SALE—On all sums of \$10 and under cash; on sums above that amount a credit until September 1st, 1918, without interest will be given, purchaser to execute note that meets with the approval of the clerk. A discount of 3% for cash will be given. Property will not be removed until terms are fully complied with.

MRS. LENORA A. BLACKLEDGE

DUSTY MILLER, Auctioneer.

L. R. WEBB, Clerk.

PUBLIC SALE

I, the undersigned, will sell at public auction at my residence, 3½ miles south of Rushville, 5 miles west of New Salem, 5 miles northeast of Milroy, on the Gus Winship farm, on

WEDNESDAY, FEBRUARY, 6, 1918

SALE TO COMMENCE AT 10:00 A. M. SHARP

Sale to be held under a tent, regardless of weather.

13 Head of Horses 13

Consisting of 1 black gelding, 5 years old, sound, weight 1500 pounds, good worker; 1 bay gelding four years old, sound, weight 1550, good worker; 1 bay gelding four years old, sound, good worker and driver; 1 brown gelding, four years old, sound, broke single; 1 brown gelding, seven years old, good worker anywhere; 1 bay mare, 13 years old, great work mare any place you hitch her; 1 brown mare, smooth mouth, an extra good user; 1 black mare, good user; 1 gray gelding, thirteen years old, sound, weight 1600, a great work horse; 1 bay gelding, smooth mouth, weight 1500, extra good user; 1 brown horse, smooth mouth, corkin' good farm horse; 1 gray mare, weight 1400 pounds, can't be hitched wrong; 1 sorrel gelding, extra good user; the above named horses I think you will find on day of sale, not only to be good individuals but we don't think that you will attend a sale this year where you have an opportunity to buy a better lot of high class farm horses, broke as good as we think it possible to have horses broke, equally as good or even better as described.

14 Head of Cattle 14

Consisting of seven head of cows, all giving milk; five with calves by side; 1 yearling heifer; 1 yearling Shorthorn bull. The above named cows are all sound and an extra high class bunch of milk cows.

16 Head of Brood Sows 16

All Spring gilts, with good growth, double immuned, due to farrow in March.

1500 BUSHELS OF GOOD YELLOW CORN IN CRIB
40 BALES OF NICE BRIGHT WHEAT STRAW

IMPLEMENTS—3 farm wagons, 1 gravel bed, 3 2-row and 2 1-row corn plows, 1 riding break plow, 2 walking break plows, 1 McCormick binder, 1 disc wheat drill, 1 Avery corn planter with fertilizer attachment, 2 mowers, 1 clover seed cutter, 1 No. 5 Corn King manure spreader, new, 1 No. 6 McCormick mower, new, work harness for 4 horses, 1 Empire cream separator, 1 five-gallon churn, and many other articles too numerous to mention.

Personal Points

What "Doing Your Bit" Means

By CHARLES H. MOORE

(Copyright, 1917.)

How can I help my country?

The American man, woman or child who silently but sincerely has sought to answer this question has felt the first thrill of patriotism.

For such as these a new day has dawned. Their self-imposed question heralds the promise of personal sacrifice on their country's altar for justice and democracy.

How can I help my country?

Can't you hear the answer?

It comes as clear as a shout in the silent night.

It answers from out the trenches "Somewhere in France"—from bearded throats of war-worn soldiers, the mud-stained, blood-stained, nerve-racked men of steel—from the thin long lines that stand between you and death—from those who ARE doing their bit.

It cries out to you from the wastes of "no man's land" where, beneath burning suns or in pale moonlight crawling in shell holes with the dead, cruelly tortured and wounded in the strife of your ideals of liberty and democracy, are those who are doing their bit.

Your answer comes in the silence of heroes on hospital cots—they who with gritting teeth, suppress the slightest groan and who return the smile of the brave gentle Red Cross nurse, praying to recover that they may join again comrades in the first line—to give their all with those who are doing their bit.

From the whirr of the "plane" in its reckless climb in the clouds to prove itself "equal to a whole regiment," comes your answer—from those air-men of daring who dare to do their bit.

From the ships, from the trenches, from the factories, from the farms, the voice of victory answers you, the victory of personal unselfishness over ambitious self.

Oh you, who could help if you would help, but who hesitate for self! Throw aside your convenience, your pride, your personal ambitions and do what you can do and commence doing right now.

You men, you women, you children, who claim to revere our national banner of stars and stripes—it's America first and not self that you must feel and live and battle for.

And you men of business. Will tax dodging and seeking "war profits" be the spirit with which YOU advance to do YOUR bit?

And you housewives. How many hungry families of these heroes at the front would the wasted scraps from your larders of plenty feed? Are YOU doing YOUR bit?

And you workers the whole land over? Would you willingly exchange your labor, your pay and your hours for those of a soldier in the trenches that you may steadfastly say you are doing your bit?

And you, people of wealth. Would you know what your bit is? Whether you frequent the churches or not, read your answer in the story of the "Widow's Mite" and realize what share you must give if you would do your bit.

How much of the love for humanity is there in your soul?

Seek it out and put it to work unselfishly, for it is there and not elsewhere you will find your answer to what "doing your bit" means.

*Luke 21:1.

FOR THE POULTRY GROWER

Heavy Feeding in Winter.

Many reasons have been given for the scarcity of fresh eggs during the late fall and winter months. The regular poultryman gets a goodly number of eggs during all seasons of the year, and the writer is firm in the belief that few eggs are produced on the farms of the country during the cold months because the hens are underfed, says a contributor to a farm journal. The poultry raiser is prone to forget that his hens require more feed and better attention during the cold months than they do during warm weather. Even the hens that are penned the year around, require much more food in winter, because a large part of the food eaten must go to maintain bodily heat.

For winter feeding, the only safe rule to follow is to feed the hens all they will eat. Many skimp their hens on feed during the cold months, believing that if they feed heavily, the hens will become too fat to lay. A hen gets too fat to lay not because she is fed too much, but because she is fed too heavily on fat-producing foods. Like cattle and hogs, hens require a certain amount of bulky foods, and unless these foods are fed, it will not be possible to get many eggs during the cold months.

One-half the food supplied the hens should be ground, in the form of either a wet or dry mash. The mash should be bulky—that is, it should occupy a relatively large bulk in proportion to its food constituents. One-half the mash should be composed of bulky foods, as bran and cut clover or cut alfalfa. The other half of the mash should be of such concentrated foods as middlings, corn bread and beef scraps. The bran and cut clover will in bulk, be fully three times greater than the other ingredients in the mash.

The feeding of green food, or the green food that fowls obtain on range will make the ration still more bulky, and hens can safely be fed all they will eat, when fed equal parts of a bulky mash and grains.

In cold weather feeding, animal food must be included in the ration if a good egg yield is expected. This may not be in the form of beef scrap or green cut bone. If a plentiful supply of skim or buttermilk is at hand, the beef scrap or bone may be dispensed with. The mash should be wet with the milk. In addition to this, milk should be placed in vessels, so the hens can help themselves at will. One need not fear that the hens will overeat of the milk. Milk will not take the place of water, and where milk is kept before the hens in vessels all the time, water should also be supplied.

Winter time is lazy time in the poultry yard. The hen, whose living comes too easily, will likely hump herself up in the house and sleep the best part of the day away. This tendency should be combated. The hens should be made to exercise by feeding a large part of their grain ration in deep litter. Exercise and plenty of food are the best tonics for winter egg production.

Another Nut Loaf, With Noodles.

Take three-fourths of a cupful of nuts, two and a fourth cupfuls of noodles made with red dog flour, salt and pepper to taste, and one and a half cupfuls of white sauce. Mix the noodles, peanuts and white sauce. Place in a buttered baking dish and cover with buttered crumbs. Bake until brown.

Most Important Factors in Arranging Invalid's Tray

Cleanliness and neatness are important factors to be considered in arranging the tray of an invalid, points out Miss Loula Kennedy, instructor in domestic science in the Kansas State Agricultural college.

The food should be so arranged "that the patient will not have to put forth much effort to obtain it. The artistic touches count for much in arranging the tray. Daintiness arouses the eye and creates an interest in the food. The best dishes and linens obtainable are not too good for the patient.

The food should be fresh, and of the best quality. It is desirable to have as great a variety as possible. The cooking should be done with the utmost care. Hot foods should be served hot, and cold foods cold. Enough food should be given to satisfy the patient but the plate should not be overloaded, and it must be served regularly. Serving meals on time is as important as giving medicine on time.

Demands of War May Bring Back the Celluloid Collar.

It is no longer considered good form to point the digit of scorn or throw lighted matches at a gentleman who wears a highly inflammable celluloid collar. Nothing but a world war could supply an alibi for this economical Atonis, but nowadays the wearers of the stiff and glistening stranglers rank with the food conservers and the liberty bond buyers in the matter of patriotic endeavor.

Of late, or recently to be more explicit, some person with a mania for details has discovered that millions of pounds of potatoes are used annually in the United States in the manufacture of starch. Not content with this discovery, observes a writer in the New York Herald, he sought additional details and ascertained that about a third of all the starch coined, spun or manufactured goes eventually to the neck of the country. The stiff collars of the nation are responsible for a great percentage of the potato shortage. Obviously anyone who wears a starched collar is contributing to the misery of the poor, the profits of the food bandit, the gloom of the nations and the waste of America.

PIMPPLY? WELL, DON'T BE!

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, the bowels and the liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's never any sickness or pain after taking them. Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with "a dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints, and Olive Tablets are the immensely effective result.

Take one or two nightly for a week. See how much better you feel and look. 10c and 25c per box. All druggists.

NIGHT AIR RAID REPEATED

Three Known Dead and 10 Injured in Latest German Attempt

(By United Press.)

London, Jan. 30.—Three persons are known to have been killed and 10 injured during last night's air raid.

The official announcement said it was feared 6 other bodies might be buried in the wreckage. Forty-seven were killed and 169 injured in an air raid the previous night.

IF KIDNEYS ACT BAD TAKE SALTS

Says Backache is a sign you have been eating too much meat, which forms uric acid.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, hazy spells; your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water seals and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.

Another Nut Loaf, With Noodles.

Take three-fourths of a cupful of nuts, two and a fourth cupfuls of noodles made with red dog flour, salt and pepper to taste, and one and a half cupfuls of white sauce. Mix the noodles, peanuts and white sauce. Place in a buttered baking dish and cover with buttered crumbs. Bake until brown.

GAVE HER DELICATE CHILD VINOL

It Built Him Up and Made Him Strong

Newaygo, Mich.—"My little boy was in a delicate, weak, emaciated condition and had a cough so we had to keep him out of school for a year. Nothing seemed to help him until Vinol was recommended, and the change it made in him was remarkable. It has built him up and made him strong so his cough is almost entirely gone. We can not recommend Vinol too highly."—Mrs. E. N. Hanlon.

Mothers of weak, delicate, ailing children are asked to try this famous cod liver and iron tonic on our guarantee. Children love to take it.

NOTICE

State of Indiana, Rush County, ss:
In the Rush Circuit Court, November Term, 1917
EX PARTE FRED BELL, No. 1211.

Notice is hereby given that the undersigned drainage commissioner, to whom was assigned the construction of the repair of the ditch and drain described in the report of the drainage commissioner in the above entitled petition of Fred Bell, will on Saturday, the 2nd day of February, 1918, at 2 o'clock p. m. receive bids at the office of the Surveyor of Rush county, Indiana, located in the Court House in the City of Rushville, in said County and State, for the construction of the repair of said proposed drain and ditch. Said contract will be let by stations or as a whole to the lowest and best bidder.

The right to reject any and all bids is reserved.
Dated this 16th day of January, 1918.
OTTO E. HUMES,
Drainage Commissioner.

Jan16-23-30

NOTICE TO BIDDERS.

Notice is hereby given that sealed bids will be received at the County Auditor's office in Rushville, Indiana, up until two p. m. on MONDAY, FEBRUARY 4, 1918, for the construction of the John G. Beale et al. Highway in Rushville Township.

Said road to be 15639 feet in length and constructed of crushed stone with a suitable binder. The Board reserves the right to reject any and all bids.

All bids to be accompanied with a bond for twice the amount of the bid.

Witness my hand and seal this 15th day of January, 1918.

WM. H. McMILLIN,
Auditor Rush County.

Jan16-23-30

NOTICE TO BIDDERS.

Notice is hereby given that the Board of Commissioners of Rush county will receive sealed bids at the County Auditor's office in Rushville, Indiana, up until two p. m. on MONDAY, FEBRUARY 4th, 1918, for the Charles L. Smullen et al. Highway in Washington township.

Said road to be 3,315 feet in length and constructed of reinforced concrete.

All bids to be accompanied by a bond of twice the value of the bid.

The board reserves the right to reject any and all bids.

Witness my hand and seal this 15th day of January, 1918.

WM. H. McMILLIN,
Auditor Rush County.

Jan16-23-30

Notice of Administration.

Notice is hereby given that the undersigned has been appointed by the Judge of the Circuit Court of Rush County, State of Indiana, Administrator of the estate of Elizabeth C. Phelps, late of said county, deceased.

Said estate is supposed to be solvent.

CHARLES D. LAW,
Jan. 15, 1918.

The High Prices of Shoes

The report of the federal trade commission to congress, blaming the big meat packers with hoarding hides and causing the price of shoes to soar, adds proof to a well founded suspicion of the public that there was some sort of chicanery which was responsible for the unreasonable prices which are asked for shoes nowadays.

The retail dealers are not to be blamed, because they are no more than making their legitimate profit of former days, much less the manufacturers, who undoubtedly are being gouged by the packers who have cornered the hide market and have the 110,000,000 people in the United States at their mercy, because we all have to wear shoes.

This is not the least of the packers' faults, according to Francis Heaney, chief investigator for the commission, who yesterday produced evidence of their price-cutting tactics to throttle competition. Charles May, testifying regarding discrimination against independent packers, said the big packers alternated cutting prices to undersell the small fry and put them out of business.

With an increase of 45 per cent in the hides stored by the big packers, an increase in stocks held by the small packers, an increase of 30 per cent in the slaughtering of cattle and calves and an increase of 70 per cent in importation of hides, according to the commission's report—even in the face of all this, many tanning companies were found to be operating at far from capacity. This is plain evidence of what is being done to corner the hide market and bring about the thing which has been accomplished—making the price of shoes almost beyond the reach of the average citizen.

The conditions are responsible for the phenomenal increases in leather profits of the big packers reported by the commission. Net profits in 1916 were two to five times as large as in 1915. One excuse for the high price of shoes has been that a much heavier demand has been created because the government is supplying a large army, but this is partially off-set by the showing of the commission that exports of men's shoes alone dropped from the high level of 13,000,000 pairs in 1916 to 6,000,000 pairs last year.

If there is any agency in Washington which can bring about relief from this situation, the report of the commission should give sufficient ground for action.

There are a million soldiers in this country who would give six month's pay for the opportunity Dr. Law, the Kaiser's American dentist, so carelessly threw away.

How it must strafe those haughty flyer crews to be compelled to take a siding while a battered old coal train crawls by and lumbers up on the track before them.

Luxburg may be insane, as announced, but we'd rather believe the claim to be another piece of his peculiar brand of diplomacy.

AMERICAN SAVINGS WILL MEASURE WHEAT EXPORTS

"We have already exported the whole of the surplus of the 1917 wheat harvest, over and above the normal demands of our own population. It is necessary, therefore, for the food administration to restrict export of wheat so as to retain in the United States sufficient supplies to carry our own people until the next harvest.

"Therefore all exports of wheat from now forward are limited entirely to volume of saving made by the American people in their consumption of wheat and wheat products.

"We continued wheat shipments for December as far as our situation allowed, but even with all the conservation made we were still unable to load several hundred thousand tons of food-stuffs urgently required by the allied nations during the month of December alone."

HERBERT HOOVER.

WHEAT-CORN YEAST BREAD.

Wheat-corn bread is more nutritious than bread baked with wheat flour alone. Thousands of American families today are using this mixed flour bread, and in so doing are enabling America to provide more wheat flour for the allies. Here's a tested recipe for this bread: Take one and a half cups of milk, water or a mixture of the two; one-half cake compressed yeast, one and a half teaspoons salt, one tablespoon sugar, one cup cornmeal and two cups wheat flour.

Put one and a half cups of water, the cornmeal, salt, sugar and fat (if used) into a double boiler and cook twenty minutes. The water is sufficient only to soften the meal a little. Allow the meal to cool to about the temperature of the room and add the flour and yeast mixed with the rest of the water. Knead thoroughly, make into loaf, place in pan of standard size, allow to rise until nearly fills the pan and bake 45 or 50 minutes. It is hardly practicable to use a greater percentage of cornmeal than this even in emergencies, for bread so made differs very little from baked mush. Less cornmeal can be used and in such a case the general method given above may be followed.

It is possible to make a yeast raised corn bread without first cooking the cornmeal. In this case not more than one cupful of meal should be used to four cupfuls of flour. In other respects the bread is mixed and baked as in the above recipe.

Erect Carriage.

Erect posture is the primary element in good bodily poise. It is a very simple matter. And yet it is very, very uncommon. Erect posture is not only a factor in beauty; it is a very important factor in health. This is true not only because it means a normal condition of the spine, with a healthy state of the nerve centers, but because of its influence upon the functions of all the internal organs. Nature intended these organs to occupy a certain position in the body. They do their best work only when they occupy these allotted positions. When they are crowded out of position or permitted, through bad posture, to sag or fall several inches below, their efficiency is naturally interfered with. They are obliged to struggle against a severe handicap.—Physical Culture.

Every now and then that crown prince takes another lesson in the art of failure.

Can Any Kidney Medicine Equal this Record

I heartily recommend Dr. Kilmer's Swamp-Root as a valuable and very commendable preparation. It is 32 years old in this trade and today enjoys a splendid demand. I have used it myself for too frequent desire to urinate and obtained the most beneficial results. I do not know of a single instance where it failed to accomplish good effects.

Very truly yours,
JAMES SCHIRM, Druggist.
Nov. 4, 1916 Pickerington, Ohio.

Letter to
Dr. Kilmer & Co.
Binghamton, N. Y.

Prove What Swamp-Root Will Do For You

Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention the Rushville Daily Republican. Medium and large size bottles for sale at all drug stores.—(Adv.)

Powerful As Five Horses Costs Less Than Four Horses

Here is the kind of a tractor you've been looking for—one that not only plows, but does ALL farm work that horses can do, besides supplying power for belt work. Not a big, heavy, cumbersome tractor, that plows while your horses loaf and eat, then leaves the rest of the work for your horses to finish; but a tractor that does EVERY job a horse can do—does it better—faster—easier and cheaper.

It costs less than four horses, yet it plows 4 to 12 acres a day; pulls two 14-inch bottoms; harrows, discs, plants and CULTIVATES corn or other hill and row crops—16 to 20 acres a day. It is as powerful as five horses and does the work of seven horses; easy to drive as a team—a REAL ONE-MAN TRACTOR and the only tractor that does all farm work without horses. It is so inexpensive to buy and operate that even 80-acre renters can profitably use the

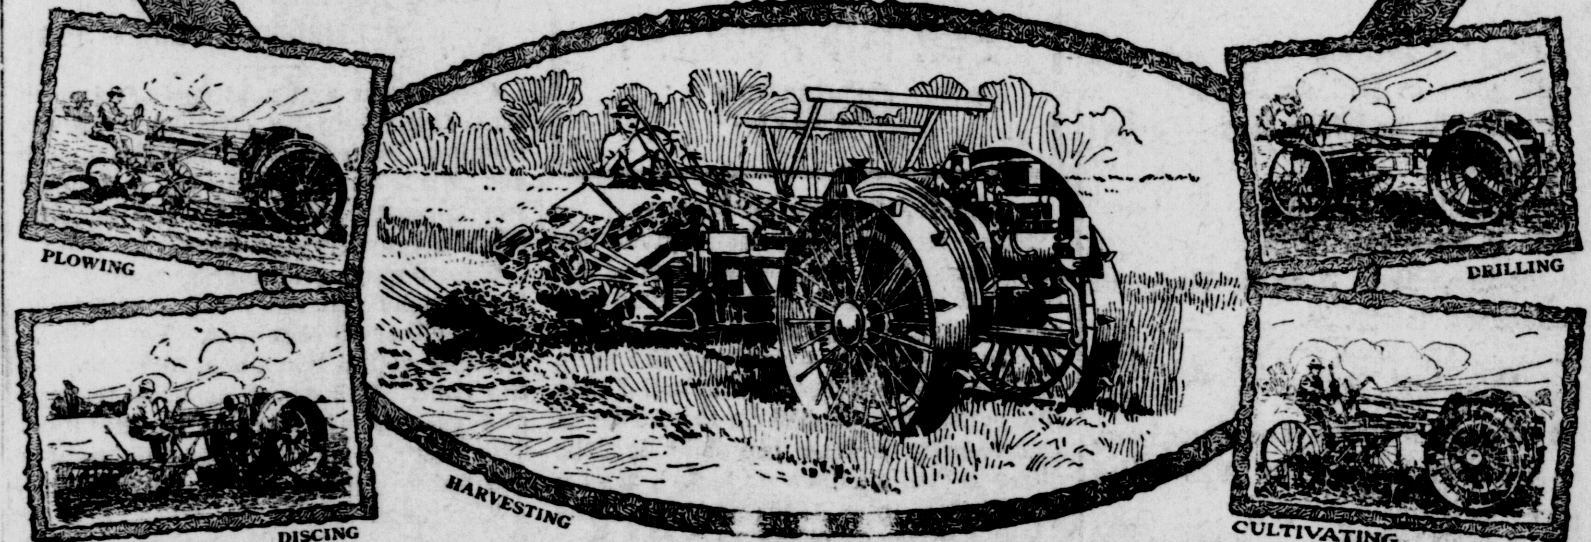

MOLINE 2 WHEEL UNIVERSAL TRACTOR

Note the big advantage of its two-wheel construction—ALL ITS WEIGHT IS TRACTION WEIGHT. ALL its weight goes into the PULL. That's why we can build it lighter—why we eliminate almost a ton of excess dead weight necessary on tractors of the three and four-wheel types. Then notice how handily it is hooked to the tool you use—the plow—harrow—cultivator—mower—binder, etc. Notice how you operate both tractor and implement from the implement seat. All your work is plainly in view. No craning or straining of your neck looking back to watch the farm tools—no extra man needed. Easy to back up with tool attached; easy to make quick and short turns; to work close to fences; to do all work as well and as easy as with a team.

No matter what size farm you own if you have 80 acres or more, here is the tractor for you. If your farm is extra large, two MOLINE UNIVERSAL Tractors will be cheaper than either horses or one large tractor. Write for our free catalog folder which tells all about this all-work, all-purpose low-cost, one-man tractor. See for yourself how it will solve the power and hired help problems on your farm.

SCHOOLS TO BE 100 PERCENT RED CROSS

Over Three Hundred Children Have Been Given Memberships by Business Men of City

LIST WILL BE COMPLETED

One hundred per cent membership in Red Cross in the public schools of Rushville—is the aim set by the Red Cross committee appointed for the schools and the aim which will soon be reached. Several opportunities have been given the children to join Red Cross and the majority have responded to this call. A complete list of those who are unable to join has been compiled by the teachers of the schools and given to the committee. The names on the list will form a basis on which the committee will soon begin to raise subscriptions to pay the membership dues of these deserving children.

During the recent membership drive, Harrie Jones, raised a fund of practically \$350 for membership dues for school children. In the near future, Mr. Jones will resume this campaign for school children and complete the raising of the fund.

Recently, another chance was given in each of the schools for the children who were not members of Red Cross to join. Sixteen joined at that time and several who could not pay the entire dues, brought contributions toward their membership.

The committee in charge of the school children's memberships is composed of Miss Henrietta Coleman, Miss Anna Bohannon and George C. Wyatt.

THREAT AGAINST FORD

Detroit, Mich. Jan. 30.—John Flurski, an Austrian, was arrested Tuesday by post-office inspectors soon after he confessed he had written a threatening letter demanding \$10,000 under threat he would kill Henry Ford and son if the money was not forthcoming within 40 days.

FLOODS DELAY COAL

Cincinnati, O., Jan. 30.—Coal from W. Va. and eastern Kentucky will be delayed by flood and the breaking of ice in all the mountain streams and rivers. Railroads bridges are being swept out.

Prayer meeting of St. Paul's M. E. church will be held tomorrow evening at the church parsonage when the features of the service will be a vocal solo by Mrs. George Hogsett and Mrs. Mert Wolcott. Everyone is invited.

COLONEL YOUNGMAN SUCCEDES TUESDAY

Officer Second in Command of Old 4th Indiana, Who Was Here Frequently, Is Dead

DISCHARGED FEW DAYS AGO

Lieutenant-Colonel Robert P. Youngman who was honorably discharged from the federalized Indiana national guard a short time ago because of ill health, died yesterday at his home in Crawfordsville of tuberculosis.

Lieutenant-Colonel Youngman, who was second in command of the old Fourth Indiana infantry regiment of which the Rushville company has become a part, assisted in the formation of the Rushville company and was present here when the local company took the oath of federal service as well as on numerous other occasions. He accompanied the regiment to Hattiesburg, Miss., but became ill shortly afterward.

"A SURE START ASSURED"

That's what you want—what you expect—every time from your car. But you cannot get it unless the battery of your starting system is in proper condition.

At this time of year, when you are getting your car in shape for summer, your battery should be carefully inspected.

We inspect all makes of batteries free of charge. That's our method of getting acquainted.

The "Exide" Starting Battery

is the one best bet in starting batteries. There are over 400,000 "Exide" Batteries now in service. We are the "Exide" Distributor in this territory.

Drive around and let us look over your battery.

AT THE DAILY REPUBLICAN OFFICE

SOCIETY

The home of Miss Mildred Vandament in Milroy was the scene of a unique social gathering when, honoring her house guests the Misses Opal and Marie Kiser, she entertained with a government party. The initial event of the evening was the grand march when the guests were attired as Uncle Sam, Red Cross nurse, sailors, soldiers and other characters featuring in the present government affairs.

Ferns and American flags were used to decorate the home and in the dining room where a three course dinner was served the national colors were used in a most effective manner. The table was lighted with candles of red, white and blue and the center decoration was an attractively fashioned bouquet of pink and white carnations.

The guests included Misses Opal and Marie Kiser, Lavonne Bogue, Emily Morgan, Beatrice Cameron, Nellie Sewright, Allene Murr, Ellendore Lampton and Callie Harcourt; Ray Kelly, Harold Johnson, Marshall Ray, Chester Richey, Wilbur Jones, Harry Ray, Paul Stewart, Paul Morgan and Fred Anderson.

At the meeting of the Ladies Aid Society of the St. Paul's Methodist church which was held yesterday afternoon at the home of Mrs. Link Guffin in North Harrison street, plans were made for the members of the society to hold an all day meeting at the Red Cross headquarters Monday, February 11 when work in the three departments at the headquarters will be done. This will be the first all day meeting to be held at the new headquarters and the women are anxious that there be a good representation in all of the departments. The rooms will be opened at 9:30.

There was a good attendance of the society members at the meeting and following the business session a short musical program was given by Mrs. George Hogsett, Miss Magdalene Arbuckle and Miss Lillian Priest, and the hostess who was assisted by Mrs. William Mulno and Mrs. Ollie Brown, served a dainty

DRINK HOT TEA FOR A BAD COLD

Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburger Brust Thee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus driving a cold from the system.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

RUB BACKACHE AND LUMBAGO RIGHT OUT

Rub Pain and Stiffness away with a small bottle of old honest St. Jacobs Oil

When your back is sore and lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a 25 cent bottle of old, honest, "St. Jacobs Oil" at any drug store, pour a little in your hand and rub it right into the pain or ache, and by the time you count fifty, the soreness and lameness is gone.

Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the ache and pain right out of your back and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin.

Nothing else stops lumbago, sciatica and lame back misery so promptly!

Social Calendar

Thursday

Social of the Loyal Daughters class and Young Men's Circle of Christian church at the church in the evening.

D. A. R. meeting in the rest room in the court house, 2:30 in the afternoon.

Meeting of the Yomo club in the afternoon at the home of Mrs. Norman Crum, 636 West Seventh street.

Send Comic Valentines To Sammies

Valentine's Day Offers a Good Chance to Remember the Soldiers and Sailors With Clever Greeting—Ones Being Made Now Especially For the Boys in Blue and Khaki.

"Have you thought of sending a Valentine to a soldier boy this year?" So starts the letter sent out by the French Relief workers in Indianapolis in suggesting the novel and appropriate Valentines that have been made especially for the soldiers and sailors. The answer to the question if put to most persons this early would probably be "No" but they will be none the less eager to seize the opportunity to sending the Valentines broadcast to the Sammies. Valentine's Day is offering the first opportunity since New Year's to remember the soldiers and sailors with a greeting and their friends will no doubt make the most of it.

The novel Valentines suggested by the French Relief, which will be sold at a nominal sum include the work of Gaar Williams, cartoonist, George Ade, Kin Hubbard, William Herschell, John T. McCutcheon.

These are working on the comic Valentines but Meredith Nicholson has planned a more serious one—a flag Valentine. The souvenirs will be on sale in the local drug stores within a short time.

luncheon. The next meeting will be held in two weeks at the home of Mrs. Harry Frances in North Harrison street.

Twenty-one attended the meeting of the Epworth League Bible Study class held at the home of Miss Frances Frazee in North Main street last evening. The lesson given by Miss Macey gave an interesting review of the first three chapters of John when she answered a number of questions of interest. The geography of the Bible country was clearly pictured by the leader. Will M. Sparks will entertain the class at the next meeting on next Monday evening when the assignment for the lesson will be the third, fourth and fifth chapters of John.

The first joint social affair of the year to be given by the members of the Loyal Daughters Sunday school class and the Young Men's Circle of the Main street Christian church will be a marshmallow toast in the basement of the church tomorrow evening.

The committee in charge of the affair has urged that all the members of the class attend the social and also asked that the guests attend the prayer meeting services which will be held in the church previous to the entertainment.

The regular monthly meeting of the Daughters of the American Revolution will be held tomorrow afternoon in the rest room at the court house. As officers for the year will be elected a good attendance is desired.

A number of Rushville boys, former Indiana university students, will take part in the celebration which will be given Saturday in Louisville when the alumni celebration of

"Founders Day," will be observed with a dinner party at the Tyler hotel. Among the local former Indiana University students at the camp are Capt. Perry Oneal, Capt. Carey Carson, Lieut. Scott Buell and Robert Humes.

The announcement of the approaching marriage of Miss Jessie McCoy, daughter of Mr. and Mrs. O. A. McCoy of Greensburg and Lieut. Norman Schlemmer, also of Greensburg has been made.

The bride-elect, who is a graduate of Oxford College and a member of the Greensburg chapter of Kappa Kappa sorority is known in this city, especially among the members of that sorority.

Mrs. H. M. Jefferies and Mrs. E. R. Jefferies entertained at their home in Falmouth today with a prettily appointed twelve o'clock dinner party. The guests included Mrs. Joseph Rich of Falmouth and Mrs. M. H. Fielding of Glenwood.

The meeting of the Pirate Bridge club which was to be held tomorrow afternoon with Mrs. Robert Tompkins has been postponed.

Notes On Activities Of Federated Clubs

One woman from the sixth district of which the Rush county federated clubs are a part, appears on each of the newly appointed committees just announced by Mrs. John F. Moore, state federation president. The women from this district and the list of committees are as follows: Art, Mrs. Paul Comstock, Richmond; Literature, Mrs. Ida Steele Barrett, Greenfield; History, Mrs. L. O. Draper, Spiceland; Music, Miss Jennie Madden, Rushville; Library Extension, Mrs. Kathleen Kallway, Cambridge City; Parent Teachers, Mrs. Carl B. Graves, Richmond; under the department of conservation, Civics and Forestry, Mrs. W. H. Bracken of Brookville; Public Health, Mrs. Will Ochiltree of Connersville Home Economics, Mrs. Elbert Shirk of Richmond; Americanization, Mrs. J. M. Carter of Connersville; Co-operative committee for Blind, Mrs. C. V. Gauze of Carthage.

The most important work before the club women of Indiana today is that active support be given the Food Administration. From Jan. 27 to Feb. 19, conferences are to be held in each county. Many noted speakers from Indiana and other states will assist. Among these is Mrs. Percy V. Pennybacker, who was recently President of the General Federation of Women's Clubs—a woman of remarkable ability.

The president has received reports of the Kentucky, Minnesota, North

Red Cross Notes

The all day meeting of the Union township Red Cross auxiliary which was held yesterday at the home of Mrs. George Billings, was attended by a large number of the Red Cross workers and during the day a large number of garments, including pajamas, bath robes and towels were completed. A pitch-in dinner was served at noon.

PETITION IS DENIED

Evansville, Ind., Jan. 30.—The petition of Ele Stansbury, Indiana attorney general, to be named defendant in suit brought by Evansville liquor interests to test the constitutionality of the state prohibition law was denied by Judge Hostetter in superior court Tuesday. Judge Hostetter stated that he did not consider Stansbury as having any interest in the suit which would make necessary him being a co-defendant.

The annual meeting of the stockholders of the Falmouth Telephone company will be held Monday afternoon in the I. O. O. F. hall in Falmouth.

Dakota and New Mexico Federations. In Minnesota and North Dakota half of the officers are elected each year and in North Dakota the constitution says that the president and corresponding secretary shall reside in the same city.

The Emerson Club of Franklin is devoting the regular meeting to Red Cross sewing and surgical dressing.

In the Y. M. C. A. drive \$1,000 was given to that war work and \$600 invested in Liberty bonds.

Mrs. N. P. Rogers, of Michigan City, has given an automobile to the Red Cross chapter. \$900 was realized from its sale.

One of the methods used by the Civic improvement Club of Michigan

City to raise money for the support of a visiting nurse is a series of knitting bees. Miss Cora Nale is president.

Mothers of Indiana, Prepare!

When a girl becomes a woman, when a woman becomes a mother, and when a woman passes through the changes of middle life, are the three periods of life when health and strength are most needed to withstand the pain and distress often caused by severe organic disturbances. Many thousands in Indiana would testify just as do the following:

PERU, IND.—"Always during the expectant period and afterward I would have poor circulation and numb spells, bothering me more at night. Five years ago I tried Dr. Pierce's Favorite Prescription—took about three bottles of it and these spells left me and I got along nicely."—Mrs. STELLA ESSIG, 390 E. Washington Avenue.

BUNKER HILL, IND.—"My mother gave me Dr. Pierce's Favorite Prescription when I was a young girl developing. I think it laid the foundation for my present healthy womanhood. I would never hesitate to recommend it to young girls at this very critical stage of life."—Miss DOSSIE WEBB.

JEFFERSONVILLE, IND.—"I had been troubled with woman's trouble for two years and after taking Dr. Pierce's Favorite Prescription I felt much better. I have told many of my friends what it did for me."—Mrs. ADIA SUMMERVILLE, Route 1.

Dr. Pierce's Favorite Prescription is a secret remedy for all the ingredients are printed on the wrapper. All druggists. Liquid or tablets. Tablets, 60 cents.

Groceries

The reason we sell so cheap is because we say

Cash, Carry and No Delivery

Don't let anyone tell you we haven't the Quality, for our Groceries are far above the average: our smoked and fresh meats are of the highest grade and without waste, and our canned goods are strictly fresh and reliable. Our margin of profit on everything for the table is exceedingly small.

We Invite Your Patronage.

SATURDAY FEBRUARY 2, 1918,

at nine o'clock a. m., in the court room in the Rush county court house. At this annual meeting such business as changing the by-laws, election of officers, and other business which will come before the meeting. This will be an important meeting, and all members are urged to be present.

JESSE A. LEISURE, Pres.

Jan. 21, 23, 28, 30.

FIRST UNIT IN U. S. TO GET STEEL HELMETS

The Sixth field artillery, members of which are here shown in a practice charge over a barricade, is the first unit of the American army in home training camps to be equipped with the steel helmets. The men carry automatics instead of rifles, and one of them is shown at the right practicing with his pistol.

FLAGSHONOR WM. M'KINLEY

Birthday of Former President Remembered by Local People

Scores of tiny American flags were worn by Rushville people yesterday in remembrance of the seventy-fifth birthday of Former President William McKinley. This practice prevailed especially among school children of various rooms who had been told of the anniversary before. The custom of wearing carnations, was abandoned this year and upon the suggestion of the McKinley Carnation League the flower was substituted by small American flags.

Better Able To Hold Down Job

Tells How Tanlac Brought Strength Back After he Had Had Pneumonia

"I'm on the job almost every day without fail since I started taking Tanlac but before I felt so bad that I had to lay off as much as one or two days every week," said A. J. Pierson, 935 North Illinois street, Indianapolis.

"I was all run down following an attack of pneumonia before I took Tanlac," Mr. Pierson continued. "I needed something to build me up. My stomach was out of order, too. I was bothered with gas on my stomach and I often felt nauseated.

"Tanlac certainly has brought back my strength but I guess the fact that I work every day now when I used to lay off so often is the best proof of that. My appetite has come back and I feel lots better.

"I think Tanlac is the thing for anybody who feels like I did."

Get Tanlac if you are not feeling right and get it today. You can get Tanlac at F. E. Wolcott's Drug Store.—(Adv.)

Attend the annual meeting on February 2, of the Rush county Live stock Insurance Co. 2724f

BOYS OFFERED PRIZES ON SEED CORN ESSAYS

State Offering Medal and County Money for Best Articles on Testing Seed Corn

AGE LIMIT IS FROM 10 TO 18

Rush county boys between the ages of ten and eighteen years are being offered an opportunity to win the medal given by the State Corn Growers Association for the prize essay on the testing of seed corn. County prizes will be given in addition to this. They will be five dollars, first prize; three dollars, second; two dollars, third; one dollar, fourth. The latter prizes have been made up by Earl Payne of the Peoples National Bank and by George Green, county chairman for the food production campaign to be conducted between February 4 and February 9.

The essays of the Rush county prize winners are to be sent to the state headquarters by March first. It is probable that many, if not all, of the township schools will encourage their pupils to compete in the contest.

16 OF 139TH TRANSFERRED

Will See Service in Overseas Engineer's Regiment

The 139th Field Artillery at Camp Shelby, Miss., in which members of old Company B, Fourth Indiana, are now serving, will send sixteen men to the Overseas Engineer's Regiment which will soon see service in France. The infirmary recruited here is also attached to the 139th. It is not known whether any men who were formerly in Company B were caught in the transfer for early foreign service, because dispatches today only mentioned Indianapolis men transferred.

Mauzy

Miss Emily Daubenspeck is seriously ill, suffering with Brights disease.

The Rev. Wilbur Sullivan of Indianapolis will preach at the Ben Davis church next Sunday.

Mr. and Mrs. William H. Gray are the grandparents of a ten pound boy, born to the wife of Leslie Hinchman.

Mrs. A. C. Haskett is spending a few days with relatives and friends in Indianapolis and Louisville, Ky.

Mr. and Mrs. Vincent Gray are spending a few days in Shelbyville, the guests of relatives.

Mrs. A. C. Haskett and Miss Ivah Daubenspeck were the guests of friends in Rushville Friday.

Mr. and Mrs. Harry Griffin of Connersville have returned to their home after a short visit with relatives here.

Mrs. Vernon Brooks has returned from a few days visit with friends in Connersville.

A boy was born to the wife of Paul Harris, Saturday.

Wheatless And Meatless Days Don't Necessarily Mean Privation

There are dozens of wheat and meat substitutes that are just as nourishing and just as palatable. It is now necessary that we sell a wheat substitute with all white flour sold. Below we list the substitutes we have in stock.

Bulk Corn Meal per lb.	5c
Barley Flour	4 lbs. 25c, per pound 7 1/2c
Rye Flour	4 lbs. 25c, per pound 7 1/2c
Oat Flour	4 lbs. 25c, per pound 7 1/2c
Steel Cut Oats	4 lbs. 25c, per pound 7 1/2c
Bulk Rolled Oats	4 lbs. 25c, per pound 7 1/2c
Cracked Hominy and Hominy Grits per pound	7c
Flake Hominy	3 lbs. 25c per pound 9c
Pure Buckwheat Flour	3 lbs. 25c per pound 9c
Wheat-A-Laxa, a very fine whole wheat flour per bag	30c

We will have Rice Flour in a few days.

For meat substitutes we offer all kind of Canned Fish, such as Salmon, Sardines and Tuna.

Salt Herring, fine fat fish per pound 12 1/2c

Victory Bread Every Day.

Russia is Entirely Out of The War, Says Barnard

State Food Administrator Gives Impressions Gained at Conference of Food Men

FIRST OF SERIES OF ARTICLES

(Note—Article 1 of Dr. Harry E. Barnard's summary of disclosures at the recent National Conference of State Food Administrators at Washington. It deals with a situation that is particularly interesting at this time—the complete elimination of Russia as a further influential factor in the war.)

"Russia is out of the war entirely.

SUIT NEW BUT HOLE IN SHOE

Bad Teeth Like Bad Shoes Spoil Fine Dress and Good Looks

PEOPLE NEGLIGENT IN CARE OF MOUTH

Senreco Tooth Paste Powerful To Save the Teeth and Prevent Diseases

"All dressed up with a hole in his shoe," was a bit of sarcasm a girl flung at a young man friend whose entire outfit was new except his punctured shoes. Right enough, too. Either to man or woman a shabby pair of shoes would spoil the appearance of the most elegant garments ever worn.

What about the teeth? Dress in all the finery you please, if you open your mouth exposing a decayed set of teeth your attractiveness ends right there. That's a hole in the shoe for you. This applies both to men and women. Girls, and young men, you lose half the admiration which would be directed toward you if you have bad teeth. You can't be pleasing with a mouthful of decay. You can't be healthy either. The condition of the teeth have a telling influence on other organs of the body. Bad teeth affect the intestines, stomach, heart, and even the eyes. Medical science shows that bad teeth produce unhealthy conditions all over the body.

With Senreco Tooth Paste at your service—a scientifically prepared preventive of Pyorrhea—there's no need of falling a prey to these ills. No need of having a mouthful of decayed teeth. Used regularly on a set of good teeth the deadly germs have little chance to enter. If they should enter they can't exist long under its thorough cleansing properties. As a cleanser and preventive of disease of the teeth it is positively reliable. Advanced cases should be treated by your dentist.

Use Senreco Tooth Paste as a preventive. Ask your dentist if you should not pay all attention to your teeth. Of course we won't say our Tooth Paste will cure Pyorrhea. If you already have it, your dentist is the doctor. Even if you are afflicted with this terrible disease Senreco Tooth Paste will help you to get rid of it, with your dentist's assistance. But we don't want you to contract any ailment of the mouth and teeth, nor does your dental doctor.

A preventive is far better than to have to go through the trials of a cure. Save your teeth by Senreco Tooth Paste and the probability is that you won't have to deal with foul and painful diseases. By taking excellent care of your teeth you may save stomach, intestinal, heart and eye troubles. Take all precaution to keep the teeth clean and do it with Senreco Tooth Paste, the latest discovery of dental science. Sample of Senreco free if you wish it. Senreco Tooth Paste, Cincinnati, Ohio.

She formerly engaged 150 divisions—60 of which were German and 100 Austrian. Russia's collapse means the withdrawal of from 70 to 80 of these divisions from the eastern front to the western front, which are now being moved. The divisions remaining east are all inferior troops. They are made up chiefly of older men, who have lost much of their early discipline through contact with the Russians. The troops being transferred to the French front will probably not equal in sufficient amount fifty divisions of the standard of the troops now in the west. They are not well equipped and are very short of artillery, therefore, it is not to be expected that this additional man power will not count for nearly its full strength in the big drive anticipated from the central powers within the near future. On the west front, France and England are regarded as perhaps twenty percent superior to the Germans in point of guns and munitions. It is apparent also that German manufacturing skill and material are on the decline. Shell fragments coming from the German lines are analyzed weakly. They show falling off in quality and an increased percentage of failure to explode. Guns recently captured are also of an inferior quality and not as carefully made as before.

"In Italy, conditions are favorable to the Austrians, contrary to press reports, the recent successful drive against Italy involved but 4 German divisions and 60 Austrian divisions as against 120 Italian divisions. It was therefore, an Austrian success. The result of which was the capture of 400,000 tons of wheat and important sugar refineries and supplies. If the success continues, Italy's sugar crop and supplies will have vanished before May. In explanation of her reverse, Italy claims she was deserted by her Allies, who failed to supply steel, coal, and especially food. If Italy is able to hold her present line, Germany's plan to take the Northern valleys and flank France west of Nice, will have been defeated. If Italy does not hold, another Serbian tragedy is in prospect."

Amusements

Three men but with a single thought furnish the fun and action of the newest William Fox photoplay "Betrayed," directed by R. A. Walsh. Their single thought is to get married, and they all want the same girl, who is none other than Miriam Cooper herself.

Miss Cooper, for the purposes of the picture, is Carmelita Carrito, who is just as Mexican as she sounds. Tonight's program, includes Doris Kenyon in "The Hidden Hand" a great mystery play, Lonesome

TAPPING TREES TO BEGIN SOON

Farmers Asked to Make Old Trees Help in Winning The War by Tapping Them Soon

A CALL TO THE ENTIRE STATE

Carefully Following the Suggestion Will Greatly Aid in the Sugar Shortage

This is the season when the old sealy sugar trees standing in Rush county by the hundreds should be made to give their surplus wealth, in the shape of good rich sap, to help in winning the war. The making of hundred of gallons of molasses, or even of hundreds of pounds of very good sugar is a matter merely of an amount of work in the county.

County Agent Alfred Morrison of Fayette county calling the attention of the farmer's to this opportunity. The idea has taken fast hold of the owners of sugar tree groves. The likelihood is strong, that in the next few weeks, more trees will be tapped than were ever tapped in a single season. The products from the sugar water trees are not only very good and useful in themselves but they will go a long way in relieving the sugar shortage.

That the movement is under way all over the state is indicated in the following word from Lafayette:

Farmers throughout Indiana are preparing to increase the sugar supply of the state by tapping their maple sugar trees, according to reports reaching G. I. Christie of the state food conservation and production committee. With the syrup selling for \$2 a gallon, farmers having from 150 to 175 trees can make \$50 off the product.

Richard Leiber, secretary of the state board of forestry, is urging that the trees be tapped wherever possible.

"The injury to trees from tapping for syrup is negligible," he said. Lieber suggested that if a farmer owns trees and cannot work them himself, it is his patriotic duty to hunt up someone who will procure the sap.

The average production of sap per tree is twenty gallons and it takes about forty of fifty gallons of sap to make one gallon of syrup. Sap is procured by boring a small hole and inserting a spike of either wood or iron.

Farmers have been advised to place their orders for spikes and buckets for catching sap early—as soon as they are able to determine the number needed.

Growing of or production of sorghum molasses, corn syrup and honey is also being urged by state and county councils of defense and other patriotic institutions.

Luke in, "Clubs is Trumps," and the Pathe News feature.

"All work and no play makes Jack a dull boy," is the motto of Director Robert G. Vignola, who has recently directed Pauline Frederick in her Paramount productions. Especially does he believe in this policy when the thermometer soars above ninety in the shade and that shade on the usually cool edges of Lake George, New York. So, during the filming of Pauline Frederick's latest production, "The Hungry Heart," from the novel by David Graham Phillips, to be shown at the Princess tonight, both the star, the director and the members of the cast spent much of their leisure time in the waters of the lake. Director Vignola himself is a famous swimmer and was known at the lake as "The Submarine," for his irrepressible tendency to swim under water, appearing at odd and unexpected intervals at fabulous distances from his starting point.

Victor Moore also appears in a clever comedy, "The Cow Jumped Over the Moon" and the Pathe News Weekly shows many important current events of today. Tomorrow's program includes a romance of France at the time of the German invasion, "In France."

Mrs. Ira Poston of South Harrison street is suffering with an attack of gall stones.

Mrs. Ethel Wright is seriously ill at her home in West First street, threatened with pneumonia.

CONDENSED LETTER FROM CAPT. HUMES

Former Rush County Man With Lilly Base Hospital in France Writes His Brother Here

HAD A PLEASANT TRIP OVER

A "condensed letter" written on a French correspondence postal card was received today by E. O. Humes from his brother, Capt. Dolph Humes who, with the Lilly Base hospital, is in training behind the lines in France. Capt. Humes was a for-

mer Rush county boy who has gained prominence in the medical world as an expert surgeon. The notes which contain interesting information follow:

"All O. K. Delightful winter. Comfortable quarters with plenty of well cooked food. In fine shape. Satisfied and very interested in work. Had pleasant trip throughout. People here in fine spirits, hopeful and not complaining. Beautiful country with fine roads and farms which are in excellent condition. Hospital work getting under way. Several units of this district have many acquaintances."

COAL NEEDS FOR WEEK ARE ASSURED

Average of One Car a Day is Main-
tained and at Least Three More
Are Expected

TWO OTHERS ARE ON THE WAY

Moderation in Temperature Will be
Short-Lived as Another Cold
Wave is Coming

There will be no suffering from the lack of fuel in Rushville this week, in the opinion of County Fuel Administrator S. L. Trabue, because an average of a car of coal a day has been maintained so far and is likely to keep up the remainder of the week.

Rushville was so flushed with coal today that the fuel administrator allowed a car billed to a dealer here to go to Manila, which is in dire straits, without a lump of coal in town.

The fuel administrator decided to let Manila have one of two cars coming over the Pennsylvania to a local dealer because Manila so far has taken care of itself and has not had a single car of fuel administration coal. Manila is ordering a car and when it arrives it will be transferred to the dealer here. A car coming over the Pennsylvania was taken because that railroad passes through Manila and no extra shipping would be required.

Hopes based on today's bright sun and rising temperature are recalled by the weather forecast for tomorrow, "colder with cold wave." In addition to this, snow is predicted. Weather conditions today are the best, however, they have been for several days. Nine above zero was last night's lowest temperature and this morning the thermometer registered 14 above zero. Last evening, the temperature was 12 above zero.

Other towns in the county are in fair condition as regards the coal situation, according to reports reaching the fuel administration. Falmouth has received three cars in the last few days and one was shipped to Sexton Jan. 25.

John P. Frazee received another car of fuel administration coal this morning and is expecting two more this week. Dan Matlock is anticipating the arrival of one car at any time and Will Trennepohl will likely get two in a few days.

The fuel administrator received encouraging word from Indianapolis when R. L. Mood, in charge of distribution of coal in the office of the state fuel administrator, said over the telephone that Indiana mines were turning out more coal now than they had been at any time since the blizzard of two weeks ago last Friday swept the state.

U. S. AMBASSADOR TO BE HELD RESPONSIBLE

Russian Anarchists Make Threat if
Sentence is Imposed on Berk-
man and Goldman

Petrograd, Jan. 30.—An ultimatum declaring that the American ambassador "would be held responsible for life and liberty of Alexander Berkman" was forwarded to David Francis by the anarchist group of sailors and workmen at Antwerp today.

The Russian terrorists have been deeply interested in the prosecution in the United States of Berkman and Emma Goldman, the two American anarchist leaders convicted for conspiracy to defeat the conscription law.

Washington, Jan. 30.—The anarchist threat to hold U. S. Ambassador Francis at Petrograd responsible for the life and liberty of Alexander Berkman, as confirmed in a dispatch today.

DRAFT AGREEMENT REACHED

British and Canadians in United
States May be Conscripted

(By United Press.)

Washington, Jan. 30.—Great Britain and Canada have agreed that the United States may draft their men in this country into the army.

Secretary Lansing announced today. Lansing reported that Englishmen and Canadians of military age are to be given a specified time to return to their own country for service and if they do not return they will be subject to draft in the American army.

ATTENDS MEETING OF STATE GROCERS

L. L. Allen Represents Rush County
Dealers at Meeting With Food
Administrator

HELD IN INDIANAPOLIS TODAY

Steps Planned to Fix Prices of 15
Staple Articles of Food—Prices
to be Published

L. L. Allen, representing Rush county grocers, went to Indianapolis today to attend the conference of grocers of the state, called by H. E. Barnard, federal food administrator for Indiana, to consider steps for fixing prices on staple articles of food. Mr. Allen was elected to represent Rush county grocers at a meeting held here a few weeks ago. It has been planned to issue a daily bulletin on what various food-stuffs should sell for and with this published in practically every community in the state, consumers would be warned not to buy articles unless they were offered for sale at the stipulated prices.

Fifteen staple articles of food were considered as subject to price fixing.

The published prices shall govern both the retail and wholesale trade. The wholesale distribution is now regulated by federal license to the wholesale dealers.

The prices on various articles will be judged according to the general supply, demand, and allowing a just profit for the producer and dealer.

The estate food administration will have charge of setting of all prices and this authority will be delegated to county food administrators in most cases. The county administrators will co-operate with the producers and dealers in their territory in an effort to arrive at an equitable price.

INCOME TAX MAN TO BE AT POSTOFFICE

Word Received From Harry P. Euler That he Will be Ready Feb.
1 to Aid Taxpayers

MUST HAVE RECORDS READY

Harry P. Euler, income tax inspector, will be at the local post office for several days beginning February first, according to the letter received from him by Postmaster G. P. Hunt today. He will establish a temporary office in the postoffice where persons may consult him about the income tax and he will assist them in filling out their return blanks. A good supply of blanks will be at the office so persons wishing assistance need not bring them.

Mr. Euler wished to call attention of the farmers to the fact that before coming to the office they should have a record of their cash receipts for the year and their expenses. By so doing they will save time for themselves and the tax inspector, as well. His office will be established in the carrier's lobby at the postoffice.

To the People of Rush County

Two million of the finest young men of the United States will soon be marching in France, step by step with the other millions of brave soldiers of the allies, associated with us in this great war for Freedom and Justice.

In a recent message from General Pershing, commanding the American forces in France, to Secretary of War Baker, he declares that no similar body of men ever lived as clean lives, as are our army there. He further says, they live so realizing their obligation to their people, their friends and their Country.

This clean-living army, will soon number among its ranks, if it does not already, some one or more, whose welfare is dearer to you and I, than anything else on earth.

It is our first duty, our highest obligation, to supply the needs of our own army over there, and also as far as possible, our associates in the war.

The regulations lately issued by Mr. Hoover and his corps of able food experts, call for greater self-denial on our part than heretofore. These further sacrifices are only asked of us due to the hard necessities of war. Now, as liberty-loving citizens of this great Republic, let us cheerfully and heroically comply, and by precept and example, urge and influence our friends and neighbors to do likewise.

M. K. LOVETT,
Federal Food Administrator.

January 30, 1918.

LETTER FROM RUTH DILLON IN FRANCE

Interesting Account of Sea Voyage
of Lilly Hospital Unit Written
To Her Sister

CAUGHT IN STORM AT SEA

Mrs. Charles Sharp of 628 West Third street has received a letter from her sister, Miss Ruth Dillon, who is with the Lilly Base Hospital in France. Miss Dillon has been in Indianapolis for some time, as a trained nurse. On her enlistment papers, however, she gave her home as Rushville.

The letter was very interesting from start to finish. She told of a storm at sea which made the ship sway so that the dishes fell from the table onto their laps. Other incidents of the trip and their safe arrival were told by Miss Dillon, who is well known in this city. Miss Hazel Bennett, Neff Ashworth and Russell Kirkpatrick, all of this city, are with the unit.

CALLS RUSH COUNTY CAMPAIGN A HUMMER

Executive Secretary of Anti-Tuberculosis Society Compliments Red
Cross Seal Sales Here

EXPENSES WERE VERY LOW

That the Rush county Red Cross seal campaign was a "hummer" is the opinion of Arthur J. Strawn, executive secretary of the Indiana Anti-Tuberculosis society, in his letter to Dr. W. S. Coleman, county chairman of the society. His letter reads:

"One glance at the perfectly splendid report you have submitted shows us that it has been successful. We think that your sale over the county as well as in the city of Rushville must have been a 'hummer.' We notice that you have increased more than three times over your sale of 1916 although of course this society derived some benefit in 1916 from those parts of the county which you could not reach. It is amazing how inexpensively your campaign has been conducted."

Rush county's sale netted \$427, more than three times the amount of last year. Of this amount, \$339.25 was procured in Rushville alone. No efforts were spared by the members of the sales for several years, to make the campaign a success. Campaign shows the best record of any of the other towns of the county, aside from Rushville, with the sale amounting to \$427. Many came here with mail on over \$27.

OVER 50 HAVE BEEN VACCINATED HERE

Thirty-Five Children in Washington
School Treated, Besides a
Number of Others

NEW CASE OF DIPHTHERIA

Between 50 and 60 persons have been vaccinated within the past two days. About thirty-five of these were children in the Washington school. All of the colored children have been vaccinated as well as all other persons who have been in any exposed to smallpox. With these careful precautions it is hoped the disease will not spread.

One new case of diphtheria was reported last night. It was that of Miss Theresa Reardon, daughter of Mr. and Mrs. John Reardon of West First street. The diphtheria epidemic had been practically wiped out with the exception of the case of Miss Dorothy Brecheisen who is recovering from the disease.

TWENTY TWO MEN ARE FOUND PHYSICALLY FIT

Result of Two Days Examinations
Brings Total Ready to be In-
ducted Into Army To 87

SIX REGISTRANTS REJECTED

Results of the medical examination of registrants Monday and Tuesday will be found on page seven of today's issue.

Reports on the medical examination of registrants for the national army by Dr. W. S. Coleman were received today by the county army selection board, showing twenty passed and ready to be inducted into the army, six rejected and one held for limited service. Some called on these two days failed to report and others appealed to the medical advisory board, which meets only one day a week to take up all cases coming before it.

With the twenty-two passed so far this week, there are now eighty-seven men ready to be inducted into the army. Counting the one reported today, there are six held for limited service. Dr. Coleman was examining a group of registrants and still another set is called for tomorrow. Calls have also been issued for examinations next Tuesday and Wednesday.

Mrs. Glen Mott was a visitor in Indianapolis today. Ed Dee made a business visit in Indianapolis today.

I. & C. SCHEDULE RESUMED

During Severe Weather Only Local
Cars Running

The regular schedule will be resumed on the I. and C. traction line beginning tomorrow, including freight and passenger cars which will run on time. The service has necessarily been impaired since two weeks ago last Friday when the blizzard started. The heavy snows and severe weather have affected the lines so that only local cars have been running. The news that the regular schedule will be resumed will be received gladly by patrons of the received gladly by patrons of the road over the entire county.

COAL SHOVELS TAGGED TODAY

School Children of Indiana Make
Drive on Kaiser by Passing
Tags for Coal Conservation

700,000 AT WORK IN STATE

Tags Bear Practical Suggestions As
to How The Shovelful Might Be
Saved for Uncle Sam

Indiana's school children, an army of more than 700,000, have made a drive on the Kaiser today, by tagging every coal shovel in each school locality. The campaign in the local schools has not been confined to one day but several weeks ago, tags were distributed among the pupils to take home and attach to the coal shovel. In addition to this, children have taken tags to many of the remaining homes of the city, with the request that they be tied on the coal shovel.

The tags bear on appeal to "Save that shovelful of coal a day for Uncle Sam." On one side are practical suggestions as to how the shovelful and more might be saved, such as to cover the furnace with asbestos; to keep the rooms at 68 degrees; to heat only the rooms in use; to test ashes by sifting and if they contain too much coal get the heater fixed; get suggestions from the stove manufacturers on the most economical way to fire; save gas and electric light.

Hotels over the country have taken up the fuel conservation measures by posting placards in the rooms urging the guests to save electric light; not to waste hot water (which takes coal to heat it); not to let the room get overheated.

Other posters read, "You can fight the German Zep in a most effective way by practicing and preaching coal conservation. You know there are those disposed to complain when the least inconvenience is encountered. Your part in the fight is to show such persons that they are making no sacrifice comparable to the sacrifice of the men who are giving up business, home and life itself to protect us. Our government needs coal to win."

2 ENEMY DIVISIONS ARE ANNIHILATED

Italians Announce Capture of Large
Amount of Booty, 100 Officers
And 2,500 Men

BERLIN ADMITS ENEMY GAINS

London, Jan. 30.—Two enemy divisions were annihilated by the Italians in the fighting around Coldarof, the Italian official statement today declared.

The Italians took booty, it is declared, amounting to 6 big guns, a hundred machine guns and several thousand rifles, more than a hundred officers and 2,500 men taken prisoners. The Berlin statement admitted the loss of the divisions.

BERLIN STRIKE GROWING HOURLY

One Report Puts Number at 40,000
and Another at 75,000 With
Hundreds Joining Each Hour

SMALL TOWNS ARE AFFECTED

Workmen's Council of 500 Formed in
Berlin—Disaffection Reported
on East Front

(By United Press.)

Copenhagen, Jan. 30.—The Berlin strike is growing hourly. The movement is spreading to provincial towns.

Danzig and Hamburg are now affected. In Berlin a workmen's council of 500 has been formed. This information came today in dispatches from Berlin.

Rumors were circulated here today that German soldiers shot some of their officers on the eastern front. It was also reported there were disturbances among sailors of the German fleet at Kiel.

All labor meetings have been prevented.

The German majority socialist leader, with Dr. Haaf, leader of the independent socialists, told of the formation of the workmen's council and demanded that negotiation in relation to the strike be held in the presence of the workmen.

The number of Berlin strikers has been estimated at 40,000. Another put the total number at 75,000. The first message declared hundreds were joining hourly.

It is of tremendous significance that the majority socialist leaders have joined with the minority leaders. For the first time the two factions of the party have been united.

BRITISH TRANSPORT, 2,000 ABOARD, SUNK

Admiralty Announces Sinking of Aragon
Dec. 30, Osmaning Dec.
31—Ninth Since War Began

TOTAL LOSS OF LIFE IS 9000

(By United Press.)

London, Jan. 30.—The British transport Aragon carrying 2,000 men was torpedoed and sunk in the eastern Mediterranean on Dec. 30 with a loss of 610 men, the admiralty announced today. A destroyer rescuing survivors was also torpedoed.

Sinking of the Osmaning carrying 800 men also was announced as having occurred Dec. 31.

In the same statement announcing of this disaster, the admiralty announced "let since the start of the war 9 British transports had been sunk and 9,000 lives lost. During the same period 11,000,000 soldiers had been transported."

LOST FOR WANT OF SECOND

Resolution Commending Baker Falls
in State Defense Body

(By United Press.)

Indianapolis, Ind., Jan. 30.—A resolution introduced at today's meeting of the State Council of Defense expressing confidence in Secretary of War Baker was declared lost by Chairman Hays because no one sought to second the motion for its passage. It was decided to revert the resolution to a committee.

\$7,000 FIRE AT MUNCIE

(By United Press.)

Muncie, Ind., Jan. 30.—Fire originating from an overheated stove in the office of the Rudy Wood Lumber company, destroyed the last story today of \$7,000. The second story department is a complete loss and other departments of the plant were badly damaged.

RECEIPTS OF THRIFT STAMPS CLIMB FAST

Yesterday Was Banner Day at Local Office With Sales Amounting to Sum of \$600

ONE CARRIER SELLS \$300

Yesterday was one of the banner days at the postoffice, and on the rural routes for the sale of Thrift stamps and war certificates. The sales of the one day alone, totalled about \$600. Of this amount, the carrier on route 10 sold three hundred dollars worth to three parties and sold one more of the hundred dollar certificates today. Farmers are taking up with this method of saving enthusiastically. Purchasing the stamps from their carriers is a great convenience for farmers.

Postmaster Hunt stated this morning that the local office must be doing as well as headquarters expected them to do for they ran out of war certificates today. A new supply was ordered and will be ready for sale tomorrow morning. Thirty-two of the purchasers of Thrift stamps have registered. This is not necessary but protects the owner in case the stamps might be lost.

Manilla has the best record of any office in the county with the exception of the local one. Three one hundred dollar certificates were registered here today that had been purchased there. Although indications were several days ago that this month would go behind December in receipts from the Thrift stamps sales because of the bad weather, the sales of the past few days will possibly bring January up to, and perhaps surpass December's record of \$2,500.

For Tired Women With Aching Heads

"They help me so much and I find relief as soon as I begin taking your Foley Kidney Pills," Mrs. Frank P. Wood, Quincy, Maine, R. F. D. No. 2.

Sometimes it seems as if you can't stand the pain across your back. It is just making your nerves feelable and pulling you of all energy and strength. When you are constantly tired, your nerves are constantly straining. Always strain your nerves. On your kidneys action painful and burning. This is the time to start in at once on Foley Kidney Pills.

They strengthen the weak, ailing kidneys, improve their action, enable them to do their duty and so you can get on with your life. Your nerves grow peaceful, sleep becomes sounder, nervous headaches disappear. As Mrs. Wood says, "I feel as good as new." It is just making your Foley Kidney Pills so easy to get the genuine Foley Kidney Pills for they are pure, medicinal and contain no harmful drugs.

W. L. Johnson.

HAWAIIAN SITS IN CONGRESS

Prince Kalaniana'ole, congressional delegate from Hawaii, states that Hawaiians run fairly close to the American type. The prince has royal blood coursing through his veins. He is popular in congress and is called Prince Killarney by other members. He draws a congressman's pay. His chief duties are keeping government seeds, pensions and bulletins going to his Hawaiian constituents.

THE MORNING

By FOLGER M'KINSEY.

I'm glad they made the morning and sent the morning here To lift us with its laughter and swing us in its cheer.

The fresh and dancing morning, When souls go forth to fight With joy for the song of the bugles, And love for the lit of light.

I'm glad they made the morning, and called it morning, too, With its sunshine full of splendor in a sky so full of blue.

The young, green spirit of it, The bubble and the bloom, With our hearts awake to love it, And souls to doff their gloom.

I'm glad they made the morning, and sent it down to earth To make a path of beauty for feet to tread in mirth.

The fair and dewy morning, The fresh and the sparkling day— With love in the lit of the trumpets, As brave hearts face the fray.

—Baltimore Sun.

Electrically Controlled Boat Was the Invention of John Hays Hammond

Recently cables from England made brief mention of the "electrically controlled high speed boat" which it was announced the enemy was operating off the coast of Flanders. A veil of mystery was thrown over the new vessel and naturally curiosity on this side of the Atlantic was heightened by the lack of detail in the messages announcing the new craft. One satisfactory feature of the announcement was the fact that it apparently proved a failure at its first trial.

There is, however, nothing new in the electrically controlled boat for such a vessel was given a thorough and successful trial in 1914 in Gloucester bay along the shores of Massachusetts, observes a writer. The strange craft was the invention of John Hays Hammond, son of the famous American mining engineer. It was controlled by wireless waves from the shore and was designed to carry a high explosive charge.

Mr. Hammond's invention was in fact a torpedo which could be controlled from the shore resembling in this respect the old Brennan torpedo, which was employed in the British coast defenses 20 years ago and was steered and driven by thin wires running over drums in the torpedo and actuating the screws when the wires were wound in by an engine ashore.

Feathered Night Fishes.

One of the most remarkable instances of phosphorescent light appearing on living creatures is found among the herons. Among the quays and at the extreme end of Florida these birds are found in countless numbers. Mullet fishermen and sportsmen often notice peculiar dim lights standing motionless over the water among the mangrove thickets. They were discovered however, to depend on the presence of the birds. When they were approached in the dark the flapping of wings as a heron saw a way would mean the last of the lights. The Audubon Herons, or great herons as on its breast a spot about as large as the open palm, where the feathers are covered with a thick yellow powder that is easily shaken off, and evidently exudes from the body at this point a secretion driving into a powder when exposed to the air. The bird glides motionless in the water, and the spots are undoubtably used to attract the fish. The bird is a great hunter and is very intelligent. It is a great hunter and is very intelligent. It is a great hunter and is very intelligent.

THE HOME SET

PUBLIC SALE

I, the undersigned, will sell at public sale, at my residence, one and a half miles north of Rushville, on the farm known as the Amos Blackledge farm,

MONDAY, FEBRUARY, 4th, 1918

SALE TO COMMENCE AT 12:30 P. M.

If weather is inclement sale will be held under cover.

The following described property:

6 Head of Horses 6

1 black draft mare, black, coming 6 years old, weight about 1400 pounds, a splendid mare, an extra good worker; 1 draft mare, bay, weight about 1600 pounds, an extra good mare, can't be hitched wrong. These two draft mares have been worked together and are a first class team; 1 sorrel mare, a fine worker and good brood mare, weight about 1200 pounds; 1 gray horse, a good all around general purpose horse; 1 bay mare, a regular family mare, good worker and is a first class animal; 1 coming two-year-old draft filly, halter broke.

1 FRESH EXTRA GOOD JERSEY COW 3 HEIFER CALVES — GOOD MILK STOCK

FARMING IMPLEMENTS—Consisting of two farm wagons, yard and a half gravel bed, manure spreader, double disc harrow, 2 walking break plows, 2 corn cultivators, a one-horse wheat drill, sulky hay rake, a two-horse corn planter, a five-foot mowing machine, an extra good steel roller, field drag, and five sets of work harness, 1 set of buggy harness and other articles which space does not permit.

TERMS OF SALE—On all sums of \$10 and under cash; on sums above that amount a credit until September 1st, 1918, without interest will be given, purchaser to execute note that meets with the approval of the clerk. A discount of 3% for cash will be given. Property will not be removed until terms are fully complied with.

MRS. LENORA A. BLACKLEDGE

DUSTY MILLER, Auctioneer. L. R. WEBB, Clerk.

PUBLIC SALE

I, the undersigned, will sell at public auction at my residence, 3 1/2 miles south of Rushville, 5 miles west of New Salem, 5 miles northeast of Milroy, on the Gus Winship farm, on

WEDNESDAY, FEBRUARY, 6, 1918

SALE TO COMMENCE AT 10:00 A. M. SHARP

Sale to be held under a tent, regardless of weather.

13 Head of Horses 13

Consisting of 1 black gelding, 5 years old, sound, weight 1500 pounds, good worker; 1 bay gelding four years old, sound, weight 1550, good worker; 1 bay gelding four years old, sound, good worker and driver; 1 brown gelding, four years old, sound, broke single; 1 brown gelding, seven years old, good worker anywhere; 1 bay mare, 13 years old, great work mare, any place you hitch her; 1 brown mare, smooth mouth, an extra good user; 1 black mare, good user; 1 gray gelding, thirteen years old, sound, weight 1600, a great work horse; 1 bay gelding, smooth mouth, weight 1500, extra good user; 1 brown horse, smooth mouth, corkin' good farm horse; 1 gray mare, weight 1400 pounds, can't be hitched wrong; 1 sorrel gelding, extra good user; the above named horses I think you will find on day of sale, not only to be good individuals but we don't think that you will attend a sale this year where you have an opportunity to buy a better lot of high class farm horses, broke as good as we think it possible to have horses broke, equally as good or even better as described.

14 Head of Cattle 14

Consisting of seven head of cows, all giving milk; five with calves by side; 1 yearling heifer; 1 yearling Shorthorn bull. The above named cows are all sound and an extra high class bunch of milk cows.

16 Head of Brood Sows 16

All Spring girls, with good growth, double immaned, due to farrow in March.

1500 BUSHEL OF GOOD YELLOW CORN IN CRIB

40 BALES OF NICE BRIGHT WHEAT STRAW

IMPLEMENTS—3 farm wagons, 1 gravel bed, 3 2-row and 2 1-row corn plows, 1 riding break plow, 2 walking break plows, 1 McCormick binder, 1 disc wheat drill, 1 Avery corn planter with fertilizer attachment, 2 mowers, 1 clover seed cutter, 1 No. 5 Corn King manure spreader, new, 1 No. 6 McCormick mower, new, work harness for 4 horses, 1 Empire cream separator, 1 five gallon churn, and many other articles too numerous to mention.

—Miss Gladys Bebout has returned to Greensburg where she is a student in DePauw university after spending several days with her parents, Mr. and Mrs. Chita Bebout.

—Miss Anne Straight, visiting nurse, has returned from Indianapolis where she went to inquire about enlisting for service as an army nurse. Because of a recent attack of appendicitis, Miss Straight is unable to pass the physical examination. When her condition improves, she may make another attempt to enter the service.

What "Doing Your Bit" Means

By CHARLES H. MOORE

(Copyright, 1917.)

How can I help my country?

The American man, woman or child who silently but sincerely has sought to answer this question has felt the first thrill of patriotism.

For such as these a new day has dawned. Their self-imposed question heralds the promise of personal sacrifice on their country's altar for justice and democracy.

How can I help my country? Can't you hear the answer?

It comes as clear as a shout in the silent night.

It answers from out the trenches "Somewhere in France"—from bearded throats of war-worn soldiers, the mud-stained, blood-stained, nerve-racked men of steel—from the thin long lines that stand between you and death—from those who ARE doing their bit.

It cries out to you from the wastes of "no man's land" where, beneath burning suns or in pale moonlight crawling in shell holes with the dead, cruelly tortured and wounded in the strife of your ideals of liberty and democracy, are those who are doing their bit.

Your answer comes in the silence of heroes on hospital cots—they who with gritting teeth, suppress the slightest groan and who return the smile of the brave gentle Red Cross nurse, praying to recover that they may join again comrades in the first line—to give their all with those who are doing their bit.

From the whirl of the "plane" in its reckless climb in the clouds to prove itself "equal to a whole regiment," comes your answer—from those air-men of daring who dare to do their bit.

From the ships, from the trenches, from the factories, from the farms, the voice of victory answers you, the victory of personal unselfishness over ambitious self.

Oh, you, who could help if you would help, but who hesitate for self! Throw aside your convenience, your pride, your personal ambitions and do what you can do and commence doing right now.

You men, you women, you children, who claim to revere our national banner of stars and stripes—It's America first and not self that you must feel and live and battle for.

And you men of business. Will tax dodging and seeking "war profits" be the spirit with which YOU advance to do YOUR bit?

And you housewives. How many hungry families of these heroes at the front would the wasted scraps from your larders of plenty feed? Are YOU doing YOUR bit?

And you workers the whole land over? Would you willingly exchange your labor, your pay and your hours for those of a soldier in the trenches that you may steadfastly say you are doing your bit?

And you, people of wealth. Would you know what your bit is? Whether you frequent the churches or not, read your answer in the story of the *Widow's Mite and realize what share you must give if you would do your bit.

How much of the love for humanity is there in your soul?

Seek it out and put it to work unselfishly, for it is there and not elsewhere you will find your answer to what "doing your bit" means.

*Luke 21:1

FOR THE POULTRY GROWER

Heavy Feeding in Winter.

Many reasons have been given for the scarcity of fresh eggs during the late fall and winter months. The regular poultryman gets a goodly number of eggs during all seasons of the year, and the writer is firm in the belief that few eggs are produced on the farms of the country during the cold months because the hens are underfed, says a contributor to a farm journal. The poultry raiser is prone to forget that his hens require more feed and better attention during the cold months than they do during warm weather. Even the hens that are penned the year around, require much more food in winter, because a large part of the food eaten must go to maintain bodily heat.

For winter feeding, the only safe rule to follow is to feed the hens all they will eat. Many skimp their hens on feed during the cold months, believing that if they feed heavily, the hens will become too fat to lay. A hen gets too fat to lay not because she is fed too much, but because she is fed too heavily on fat-producing foods. Like cattle and hogs, hens require a certain amount of bulky foods, and unless these foods are fed, it will not be possible to get many eggs during the cold months.

One-half the food supplied the hens should be ground, in the form of either a wet or dry mash. The mash should be bulky—that is, it should occupy a relatively large bulk in proportion to its food constituents. One-half the mash should be composed of bulky foods, as bran and cut clover or cut alfalfa. The other half of the mash should be of such concentrated foods as middlings, corn bread and beef scraps. The bran and cut clover will in bulk, be fully three times greater than the other ingredients in the mash.

The feeding of green food, or the green food that fowls obtain on range will make the ration still more bulky, and hens can safely be fed all they will eat, when fed equal parts of a bulky mash and grains.

In cold weather feeding, animal food must be included in the ration if a good egg yield is expected. This may not be in the form of beef scrap or green cut bone. If a plentiful supply of skim or buttermilk is at hand, the beef scrap or bone may be dispensed with. The mash should be wet with the milk. In addition to this, milk should be placed in vessels, so the hens can help themselves at will. One need not fear that the hens will overeat of the milk. Milk will not take the place of water, and where milk is kept before the hens in vessels all the time, water should also be supplied.

Winter time is lazy time in the poultry yard. The hen, whose living comes too easily, will likely hump herself up in the house and sleep the best part of the day away. This tendency should be combated. The hens should be made to exercise by feeding a large part of their grain ration in deep litter. Exercise and plenty of food are the best tonics for winter egg production.

Another Nut Loaf, With Noodles. Take three-fourths of a cupful of nuts, two and a fourth cupfuls of noodles made with red dog flour, salt and pepper to taste, and one and a half cupfuls of white sauce. Mix the noodles, peanuts and white sauce. Place in a buttered baking dish and cover with buttered crumbs. Bake until brown.

Most Important Factors in Arranging Invalid's Tray

Cleanliness and neatness are important factors to be considered in arranging the tray of an invalid, points out Miss Louisa Kennedy, instructor in domestic science in the Kansas State Agricultural college.

The food should be so arranged "that the patient will not have to put forth much effort to obtain it. The artistic touches count for much in arranging the tray. Daintiness arouses the eye and creates an interest in the food. The best dishes and utensils obtainable are not too good for the patient.

The food should be fresh, and of the best quality. It is desirable to have as great a variety as possible. The cooking should be done with the utmost care. Hot foods should be served hot, and cold foods cold. Enough food should be given to satisfy the patient but the plate should not be overloaded, and it must be served regularly. Serving meals on time is as important as giving medicine on time.

Demands of War May Bring Back the Celluloid Collar.

It is no longer considered good form to point the digit of scorn or throw lighted matches at a gentleman who wears a highly inflammable celluloid collar. Nothing but a world war could supply an alibi for this economical Altonis, but nowadays the wearers of the stiff and gawdies strangle rank with the food conservers and the liberty bond buyers in the matter of patriotic endeavor.

Of late, or recently to be more explicit, some person with a mania for details has discovered that millions of pounds of potatoes are used annually in the United States in the manufacture of starch. Not content with this discovery, observes a writer in the New York Herald, he sought additional details and ascertained that about a third of all the starch coined, spun or manufactured goes eventually to the neck of the country. The stiff collars of the nation are responsible for a great percentage of the potato shortage. Obviously, anyone who wears a starched collar is contributing to the misery of the poor, the profits of the food bandit, the gloom of the nations and the waste of America.

PIMPLY? WELL, DON'T BE!

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Clear the blood, the bowels and the liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's never any sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with a "dark brown taste," a "bad breath," a "dull, listless," "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints, and Olive Tablets are the immensely effective result.

Take one or two nightly for a week. See how much better you feel and look. 30c and 25c per box. All druggists.

NIGHT AIR RAID REPEATED

Three Known Dead and 10 Injured in Latest German Attempt

(By United Press.)

London, Jan. 30.—Three persons are known to have been killed and 10 injured during last night's air raid.

The official announcement said it was feared 6 other bodies might be buried in the wreckage. Forty-seven were killed and 160 injured in an air raid the previous night.

IF KIDNEYS ACT BAD TAKE SALTS

Says Backache is a sign you have been eating too much meat, which forms uric acid.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, also you have backache, sick headache, dizzy spells; your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water acids and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician or once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular water drinkers. It is inexpensive, cannot injure and makes a delightful, effervescent little water drink.

GAVE HER DELICATE CHILD VINOL

It Built Him Up and Made Him Strong

Newaygo, Mich.—"My little boy was in a delicate, weak, emaciated condition and had a cough so we had to keep him out of school for a year. Nothing seemed to help him until Vinol was recommended, and the change it made in him was remarkable. It has built him up and made him strong so his cough is almost entirely gone. We highly recommend Vinol too. We can't—Mrs. E. N. Hanlon.

Mothers of weak, delicate, ailing children are asked to try this famous cod liver and iron tonic on our guarantee. Children love to take it.

NOTICE

State of Indiana, Rush County, ss:
In the Rush Circuit Court, November Term, 1917
EX PARTE FRED BELL, No. 1211.

Notice is hereby given that the undersigned drainage commissioner, to whom was assigned the construction of the repair of the ditch and drain described in the report of the drainage commissioner in the above entitled petition of Fred Bell, will on Saturday, the 2nd day of February, 1918, at 2 o'clock p. m. receive bids at the office of the Surveyor of Rush county, Indiana, located in the Court House in the City of Rushville, in said County and State, for the construction of the repair of said proposed ditch and drain. Said contract will be let by stations or as a whole to the lowest and best bidder.

The right to reject any and all bids is reserved.

Dated this 16th day of January, 1918.

OTTO E. HUMES,
Jan16-23-30 Drainage Commissioner.

NOTICE TO BIDDERS.

Notice is hereby given that sealed bids will be received at the County Auditor's office in Rushville, Indiana, up until two p. m. on MONDAY, FEBRUARY 4, 1918, for the construction of the John G. Beale et al. Highway in Rushville Township.

Said road to be 16889 feet in length and constructed of crushed stone with a suitable binder. The Board reserves the right to reject any and all bids.

All bids to be accompanied with a bond for twice the amount of the bid.

Witness my hand and seal this 15th day of January, 1918.

WM. H. MCNILLIN,
Jan15-23-30 Auditor Rush County.

NOTICE TO BIDDERS.

Notice is hereby given that the Board of Commissioners of Rush County will receive sealed bids at the County Auditor's office in Rushville, Indiana, up until two p. m. on MONDAY, FEBRUARY 4, 1918, for the Charles L. Smullen et al. Highway in Washington Township.

Said road to be 2,215 feet in length and constructed of reinforced concrete.

All bids to be accompanied by a bond of twice the value of the bid.

The Board reserves the right to reject any and all bids.

Witness my hand and seal this 15th day of January, 1918.

WM. H. MCNILLIN,
Jan15-23-30 Auditor Rush County.

Notice of Administration.

Notice is hereby given that the undersigned has been appointed by the Judge of the Circuit Court of Rush County, State of Indiana, Administrator of the estate of Elizabeth C. Galt estate is supposed to be solvent.

CHARLES R. LAY,

The High Prices of Shoes

The report of the federal trade commission to congress, blaming the big meat packers with hoarding hides and causing the price of shoes to soar, adds proof to a well founded suspicion of the public that there was some sort of chicanery which was responsible for the unreasonable prices which are asked for shoes nowadays.

The retail dealers are not to be blamed, because they are no more than making their legitimate profit of former days, much less the manufacturers, who undoubtedly are being gouged by the packers who have cornered the hide market and have the 110,000,000 people in the United States at their mercy, because we all have to wear shoes.

This is not the least of the packers' faults, according to Francis Heaney, chief investigator for the commission, who yesterday produced evidence of their price-cutting tactics to throttle competition. Charles May, testifying regarding discrimination against independent packers, said the big packers alternated eating prices to undersell the small fry and put them out of business.

With an increase of 45 per cent in the hides stored by the big packers, an increase in stocks held by the small packers, an increase of 30 per cent in the slaughtering of cattle and calves and an increase of 70 per cent in importation of hides, according to the commission's report—even in the face of all this, many tanning companies were found to be operating at far from capacity. This is plain evidence of what is being done to corner the hide market and bring about the thing which has been accomplished—making the price of shoes almost beyond the reach of the average citizen.

The conditions are responsible for the phenomenal increases in leather profits of the big packers reported by the commission. Net profits in 1916 were two to five times as large as in 1915. One excuse for the high price of shoes has been that a much heavier demand has been created because the government is supplying a large army, but this is partially offset by the showing of the commission that exports of men's shoes alone dropped from the high level of 13,000,000 pairs in 1916 to 6,000,000 pairs last year.

If there is any agency in Washington which can bring about relief from this situation, the report of the commission should give sufficient ground for action.

There are a million soldiers in this country who would give six month's pay for the opportunity Dr. Law, the Kaiser's American dentist, so carelessly threw away.

How it must strafe those haughty flyer crews to be compelled to take a riding while a battered old coal train crawls by and lumbers up on the track before them.

Luxury may be insane, as announced, but we'd rather believe the claim to be another piece of his pa-

AMERICAN SAVINGS WILL MEASURE WHEAT EXPORTS

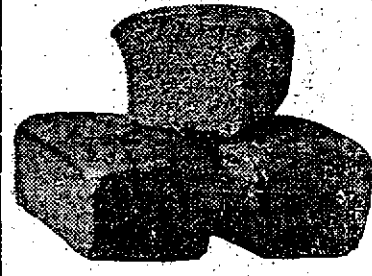

"We have already exported the whole of the surplus of the 1917 wheat harvest, over and above the normal demands of our own population. It is necessary, therefore, for the food administration to restrict export of wheat so as to retain in the United States sufficient supplies to carry our own people until the next harvest.

"Therefore all exports of wheat from now forward are limited, entirely to volume of saving made by the American people in their consumption of wheat and wheat products.

"We continued wheat shipments for December as far as our situation allowed, but even with all the conservation made we were still unable to load several hundred thousand tons of foodstuffs urgently required by the allied nations during the month of December alone."

HERBERT HOOVER.

WHEAT-CORN YEAST BREAD.

Wheat-corn bread is more nutritious than bread baked with wheat flour alone. Thousands of American families today are using this mixed flour bread, and in so doing are enabling America to provide more wheat flour for the allies. Here's a tested recipe for this bread: Take one and a half cups of milk, water or a mixture of the two; one-half cake compressed yeast, one and a half teaspoons salt, one tablespoon sugar, one tablespoon of fat if desired, one cup cornmeal and two cups wheat flour.

Put one and a half cups of water, the cornmeal, salt, sugar and fat (if used) into a double boiler and cook twenty minutes. The water is sufficient only to soften the meal a little. Allow the meal to cool to about the temperature of the room and add the flour and yeast mixed with the rest of the water. Knead thoroughly, make into loaf, place in pan of standard size, allow to rise until nearly fills the pan and bake 45 or 50 minutes. It is hardly practicable to use a greater percentage of cornmeal than this even in emergencies, for bread so made differs very little from baked mush. Less cornmeal can be used and in such a case the general method given above may be followed.

It is possible to make a yeast raised corn bread without first cooking the cornmeal. In this case not more than one cupful of meal should be used to four cupfuls of flour. In other respects the bread is mixed and baked as in the above recipe.

Erect Carriage.

Erect posture is the primary element in good bodily poise. It is a very simple matter. And yet it is very, very uncommon. Erect posture is not only a factor in beauty; it is a very important factor in health. This is true not only because it means a normal condition of the spine, with a healthy state of the nerve centers, but because of its influence upon the functions of all the internal organs. Nature intended these organs to occupy a certain position in the body. They do their best work only when they occupy these allotted positions. When they are crowded out of position or permitted, through bad posture, to sag or fall several inches below, their efficiency is naturally interfered with. They are obliged to struggle against a severe handicap.—Physical Culture.

Every now and then that crown prince takes another lesson in the art of failure.

Can Any Kidney Medicine Equal this Record

I heartily recommend Dr. Kilmer's Swamp-Root as a valuable and very commendable preparation. It is 32 years old in this trade and today enjoys a splendid demand. I have used it myself for too frequent desire to urinate and obtained the most beneficial results. I do not know of a single instance where it failed to accomplish good effects.

Very truly yours,
JAMES SCHIRM, Druggist.
Nov. 4, 1916 Pickerington, Ohio.

Letter to
Dr. Kilmer & Co.
Binghamton, N. Y.

Prove What Swamp-Root Will Do For You

Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention the Rushville Daily Republican. Medium and large size bottles for sale at all drug stores. (Ad.)

Powerful As Five Horses

Costs Less Than Four Horses

Here is the kind of a tractor you've been looking for—one that not only plows, but does ALL farm work that horses can do, besides supplying power for belt work. Not a big, heavy, cumbersome tractor, that plows while your horses loaf and eat, then leaves the rest of the work for your horses to finish; but a tractor that does EVERY job a horse can do—does it better—faster—easier and cheaper.

It costs less than four horses, yet it plows 4 to 12 acres a day; pulls two 14-inch bottoms; harrows, discs, plants and CULTIVATES corn or other hill and row crops—16 to 20 acres a day. It is as powerful as five horses and does the work of seven horses; easy to drive as a team—a REAL ONE-MAN TRACTOR and the only tractor that does all farm work without horses. It is so inexpensive to buy and operate that even 80-acre renters can profitably use the

MOLINE 2 WHEEL UNIVERSAL TRACTOR

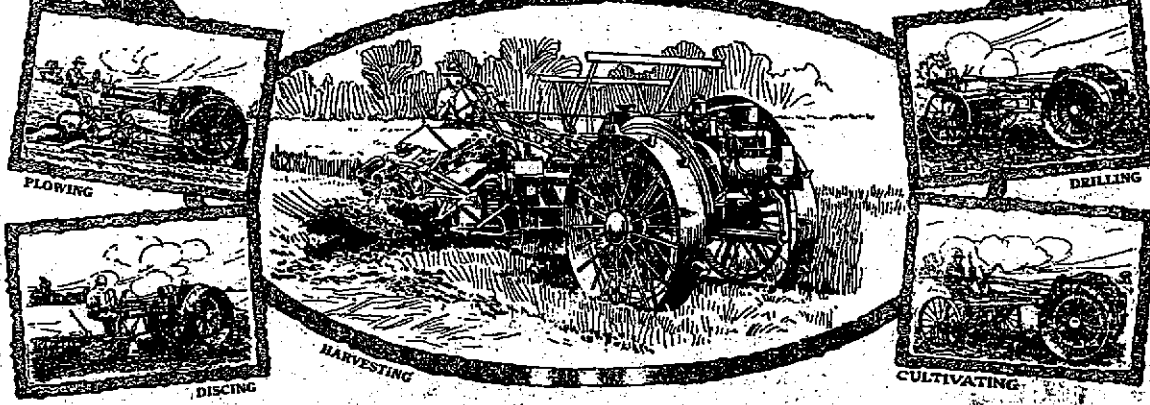

Note the big advantage of its two-wheel construction—ALL ITS WEIGHT IS TRACTION WEIGHT. ALL its weight goes into the PULL. That's why we can build it lighter—why we eliminate almost a ton of excess dead weight necessary on tractors of the three and four-wheel types. Then notice how handily it is hooked to the tool you use—the plow—harrow—cultivator—mower—binder, etc. Notice how you operate both tractor and implement from the implement seat. All your work is plainly in view. No craning or straining of your neck looking back to watch the farm tools—no extra man needed. Easy to back up with tool attached, easy to make quick and short turns to work close to fences; to do all work as well and as easy as with a team.

No matter what size farm you own, if you have 80 acres or more, here is the tractor for you. If your farm is extra large, two MOLINE UNIVERSAL Tractors will be cheaper than either horses or one large tractor. Write for our free catalog folder which tells all about this all-work, all-purpose low-cost, one-man tractor. See for yourself how it will solve the power and hired help problems on your farm.

SCHOOLS TO BE 100 PERCENT RED CROSS

Over Three Hundred Children Have Been Given Memberships by Business Men of City

LIST WILL BE COMPLETED

One hundred per cent membership in Red Cross in the public schools of Rushville—is the aim set by the Red Cross committee appointed for the schools and the aim which will soon be reached. Several opportunities have been given the children to join Red Cross, and the majority have responded to this call. A complete list of those who are unable to join has been compiled by the teachers of the schools and given to the committee. The names on the list will form a basis on which the committee will soon begin to raise subscriptions to pay the membership dues of these deserving children.

During the recent membership drive, Harrie Jones, raised a fund of practically \$350 for membership dues for school children. In the near future, Mr. Jones will resume this campaign for school children and complete the raising of the fund.

Recently, another chance was given in each of the schools for the children who were not members of Red Cross to join. Sixteen joined at that time and several who could not pay the entire dues, brought contributions toward their membership.

The committee in charge of the school children's memberships is composed of Miss Henrietta Coleman, Miss Anna Bohannon and George C. Wyatt.

THREAT AGAINST FORD

Detroit, Mich. Jan. 30.—John Fluraski, an Austrian, was arrested Tuesday by post-office inspectors soon after he confessed he had written a threatening letter demanding \$10,000 under threat he would kill Henry Ford and son if the money was not forthcoming within 40 days.

FLOODS DELAY COAL

Cincinnati, O., Jan. 30.—Coal from W. Va. and eastern Kentucky will be delayed by flood and the breaking of ice in all the mountain streams and rivers. Railroads bridges are being swept out.

Prayer meeting of St. Paul's M. E. church will be held tomorrow evening at the church parsonage when the features of the service will be a vocal solo by Mrs. George Hogsett and Mrs. Mert Wolcott. Everyone is invited.

COLONEL YOUNGMAN SUCCUMBS TUESDAY

Officer Second in Command of Old 4th Indiana, Who Was Here Frequently, Is Dead

DISCHARGED FEW DAYS AGO

Lieutenant-Colonel Robert P. Youngman who was honorably discharged from the federalized Indiana national guard a short time ago because of ill health, died yesterday at his home in Crawfordsville of tuberculosis.

Lieutenant-Colonel Youngman, who was second in command of the old Fourth Indiana infantry regiment of which the Rushville company has become a part, assisted in the formation of the Rushville company and was present here when the local company took the oath of federal service as well as on numerous other occasions. He accompanied the regiment to Hattiesburg, Miss., but became ill shortly afterward.

AT THE DAILY REPUBLICAN OFFICE

SOCIETY

The home of Miss Mildred Vandam in Milroy was the scene of a unique social gathering when, honoring her house guests the Misses Opal and Marie Kiser, she entertained with a government party. The initial event of the evening was the grand march when the guests were attired as Uncle Sam, Red Cross nurses, sailors, soldiers and other characters featuring in the present government affairs.

Forms and American flags were used to decorate the home and in the dining room where a three course dinner was served the national colors were used in a most effective manner. The table was lighted with candles of red, white and blue and the center decoration was an attractively fashioned bouquet of pink and white carnations.

The guests included Misses Opal and Marie Kiser, Lavonne Bogus, Emily Morgan, Beatrice Cameron, Nellie Sewright, Allene Murr, Ellenore Lampton and Cullie Harecourt; Ray Kelly, Harold Johnson, Marshall Ray, Chester Richey, Wilbur Jones, Harry Ray, Paul Stewart, Paul Morgan and Fred Anderson.

At the meeting of the Ladies Aid Society of the St. Paul's Methodist church which was held yesterday afternoon at the home of Mrs. Link Giffin in North Harrison street, plans were made for the members of the society to hold an all day meeting at the Red Cross headquarters Monday, February 11 when work in the three departments at the headquarters will be done. This will be the first all day meeting to be held at the new headquarters and the women are anxious that there be a good representation in all of the departments. The rooms will be opened at 9:30.

There was a good attendance of the society members at the meeting and following the business session a short musical program was given by Mrs. George Hogsett, Miss Magdaline Arbuckle and Miss Lillian Priest, and the hostess who was assisted by Mrs. William Mulno and Mrs. Ollie Brown, served a dainty

DRINK HOT TEA FOR A BAD COLD

Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburger Brust Thee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teaspoon full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus driving a cold from the system.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

RUB BACKACHE AND LUMBAGO RIGHT OUT

Relief Pain and Stiffness away with a small bottle of old honest St. Jacobs Oil

When your back is sore and lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a 25 cent bottle of old, honest, "St. Jacobs Oil" at any drug store, pour a little in your hand and rub it right into the pain or ache, and by the time you count fifty, the soreness and lameness is gone.

Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the ache and pain right out of your back and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin.

Nothing else stops lumbago, sciatica and lame back misery so promptly!

Social Calendar

Thursday

Social of the Loyal Daughters class and Young Men's Circle of Christian church at the church in the evening.

D. A. R. meeting in the rest room in the court house, 2:30 in the afternoon.

Meeting of the Yomo club in the afternoon at the home of Mrs. Norman Crum, 636 West Seventh street.

Send Comic Valentines To Sammies

Valentine's Day Offers a Good Chance to Remember the Soldiers and Sailors With Clever Greeting—Ones Being Made Now Especially For the Boys in Blue and Khaki.

"Have you thought of sending a Valentine to a soldier boy this year?" So starts the letter sent out by the French Relief workers in Indianapolis in suggesting the novel and appropriate Valentines that have been made especially for the soldiers and sailors. The answer to the question if put to most persons this early would probably be "No" but they will be gone the less eager to seize the opportunity to sending the Valentines broadcast to the Sammies. Valentine's Day is offering the first opportunity since New Year's to remember the soldiers and sailors with a greeting and their friends will no doubt make the most of it.

The novel Valentines suggested by the French Relief, which will be sold at a nominal sum include the work of Gaar Williams, cartoonist, George Ade, Kin Hubbard, William Herschell, John T. McCutcheon.

These are working on the comic Valentines but Meredith Nicholson has planned a more serious one—a flag Valentine. The souvenirs will be on sale in the local drug stores within a short time.

luncheon. The next meeting will be held in two weeks at the home of Mrs. Harry Frances in North Harrison street.

Twenty-one attended the meeting of the Epworth League Bible Study class held at the home of Miss Frances Frazee in North Main street last evening. The lesson given by Miss Macey gave an interesting review of the first three chapters of John when she answered a number of questions of interest. The geography of the Bible country was clearly pictured by the leader. Will M. Sparks will entertain the class at the next meeting on next Monday evening when the assignment for the lesson will be the third, fourth and fifth chapters of John.

The first joint social affair of the year to be given by the members of the Loyal Daughters Sunday school class and the Young Men's Circle of the Main street Christian church will be a marshmallow toast in the basement of the church tomorrow evening.

The committee in charge of the affair has urged that all the members of the class attend the social and also asked that the guests attend the prayer meeting services which will be held in the church previous to the entertainment.

The regular monthly meeting of the Daughters of the American Revolution will be held tomorrow afternoon in the rest room at the court house. As officers for the year will be elected a good attendance is desired.

A number of Rushville boys, former Indiana university students, will take part in the celebration which will be given Saturday in Louisville when the alumni celebration of

"Founders Day," will be observed with a dinner party at the Tyler hotel. Among the local former Indiana University students at the camp are Capt. Perry Oneal, Capt. Carey Carson, Lieut. Scott Buell and Robert Humes.

The announcement of the approaching marriage of Miss Jessie McCoy, daughter of Mr. and Mrs. O. A. McCoy of Greensburg and Lieut. Norman Schlemmer, also of Greensburg has been made.

The bride-elect, who is a graduate of Oxford College and a member of the Greensburg chapter of Kappa Kappa Kappa sorority is known in this city, especially among the members of that sorority.

Mrs. H. M. Jefferies and Mrs. E. R. Jefferies entertained at their home in Falmouth today with a prettily appointed twelve o'clock dinner party. The guests included Mrs. Joseph Rich of Falmouth and Mrs. M. H. Fielding of Glenwood.

The meeting of the Pirate Bridge club which was to be held tomorrow afternoon with Mrs. Robert Tompkins has been postponed.

Notes On Activities Of Federated Clubs

One woman from the sixth district of which the Rush county federated clubs are a part, appears on each of the newly appointed committees just announced by Mrs. John F. Moore, state federation president. The women from this district and the list of committees are as follows: Art, Mrs. Paul Comstock, Richmond; Literature, Mrs. Ida Steele Barrett, Greenfield; History, Mrs. L. O. Draper, Spiceland; Music, Miss Jennie Madden, Rushville; Library Extension, Mrs. Kathleen Kallway, Cambridge City; Parent Teachers, Mrs. Carl B. Graves, Richmond; under the department of conservation, Civics and Forestry, Mrs. W. H. Bracken of Brookville; Public Health, Mrs. Will Ochiltree of Connorsville Home Economics, Mrs. Elbert Shirk of Richmond; Americanization, Mrs. J. M. Carter of Connorsville; Co-operative committee for Blind, Mrs. C. V. Gauze of Carlidge.

The most important work before the club women of Indiana today is that active support be given the Food Administration. From Jan. 27 to Feb. 19, conferences are to be held in each county. Many noted speakers from Indiana and other states will assist. Among these is Mrs. Percy V. Pennybacker, who was recently President of the General Federation of Women's Clubs—a woman of remarkable ability.

The president has received reports of the Kentucky, Minnesota, North

Red Cross Notes

The all day meeting of the Union township Red Cross auxiliary which was held yesterday at the home of Mrs. George Billings, was attended by a large number of the Red Cross workers and during the day a large number of garments, including pajamas, bath robes and towels were completed. A pitch-in dinner was served at noon.

PETITION IS DENIED

Evansville, Ind., Jan. 30.—The petition of Ele Stansbury, Indiana attorney general, to be named defendant in suit brought by Evansville liquor interests to test the constitutionality of the state prohibition law was denied by Judge Hostetter in superior court Tuesday. Judge Hostetter stated that he did not consider Stansbury as having any interest in the suit which would make necessary him being a co-defendant.

The annual meeting of the stockholders of the Falmouth Telephone company will be held Monday afternoon in the I. O. O. F. hall in Falmouth.

Dakota and New Mexico Federations. In Minnesota and North Dakota half of the officers are elected each year and in North Dakota the constitution says that the president and corresponding secretary shall reside in the same city.

The Emerson Club of Franklin is devoting the regular meeting to Red Cross sewing and surgical dressing.

In the Y. M. C. A. drive \$1,000 was given to that war work and \$600 invested in Liberty bonds.

Mrs. N. P. Rogers, of Michigan City, has given an automobile to the Red Cross chapter. \$900 was realized from its sale.

One of the methods used by the Civic Improvement Club of Michigan

City to raise money for the support of a visiting nurse is a series of knitting bees. Miss Cora Nafe is president.

A Faithful Reflection

CHRISTINE MILLER

Just as the clear surface of a quiet pool mirrors the image above it, so does this marvelous instrument reflect with complete fidelity the voices of the Edison artists. So perfect and satisfying are the recreations that no human ear can detect a shade of difference between the performances of the artists and those of

The NEW EDISON The Phonograph with a Soul.

Over 1000 people heard Ida Gardner at the Main Street Christian church last November and this tone test was an example of the performances given all over the country. It was convincing.

Mothers of Indiana, Prepare!

When a girl becomes a woman, when a woman becomes a mother, and when a woman passes through the changes of middle life, are the three periods of life when health and strength are most needed to withstand the pain and distress often caused by severe organic disturbances. Many thousands in Indiana would testify just as do the following:

PERU, IND.—"Always during the expectant period and afterward I would have poor circulation and numb spells, bothering me more at night. Five years ago I tried Dr. Pierce's Favorite Prescription—took about three bottles of it and these spells left me and I got along nicely."—Mrs. STELLA ESSIG, 390 E. Washington Avenue.

BUNKER HILL, IND.—"My mother sent me Dr. Pierce's Favorite Prescription when I was a young girl developing. I think it laid the foundation for my present healthy womanhood. I would never hesitate to recommend it to young girls at this very critical stage of life."—Miss JOSIE WERN.

JEFFERSONVILLE, IND.—"I had been troubled with woman's trouble for two years and after taking Dr. Pierce's Favorite Prescription I felt much better. I have told many of my friends what it did for me."—Mrs. ADIA SUMMERS, Route 1.

Dr. Pierce's Favorite Prescription is not a secret remedy for all the ingredients are printed on the wrapper. All druggists. Liquid or tablets. Tablets, 60 cents.

Groceries

The reason we sell so cheap is because we say

Cash, Carry and No Delivery

Don't let anyone tell you we haven't the Quality, for our Groceries are far above the average; our smoked and fresh meats are of the highest grade and without waste, and our canned goods are strictly fresh and reliable. Our margin of profit on everything for the table is exceedingly small.

We Invite Your Patronage.

ANNUAL MEETING

There will be a meeting, of the Rush county Live Stock Insurance Company, on SATURDAY FEBRUARY 2, 1918, at nine o'clock a. m., in the court room in the Rush county court house. At this annual meeting such business as changing the by-laws, election of officers, and other business which will come before the meeting. This will be an important meeting, and all members are urged to be present.

JESSE A. LEISURE, Pres.
Jan. 21, 23, 25, 30.

FIRST UNIT IN U. S. TO GET STEEL HELMETS

The Sixth field artillery, members of which are here shown in a practice charge over a barricade, is the first unit of the American army in home training camps to be equipped with the steel helmets. The men carry automatics instead of rifles, and one of them is shown at the right practicing with his pistol.

FLAGSHONOR WM. M'KINLEY BOYS OFFERED PRIZES ON SEED CORN ESSAYS

State Offering Medal and County Money for Best Articles on Testing Seed Corn

AGE LIMIT IS FROM 10 TO 18

Rush county boys between the ages of ten and eighteen years are being offered an opportunity to win the medal given by the State Corn Growers Association for the prize essay on the testing of seed corn. County prizes will be given in addition to this. They will be five dollars, first prize; three dollars, second; two dollars, third; one dollar, fourth. The latter prizes have been made up by Earl Payne of the Peoples National Bank and by George Green, county chairman for the food production campaign to be conducted between February 4 and February 9.

The essays of the Rush county prize winners are to be sent to the state headquarters by March first. It is probable, that many, if not all, of the township schools will encourage their pupils to compete in the contest.

16 OF 139TH TRANSFERRED

Will See Service in Overseas Engineer's Regiment

The 139th Field Artillery at Camp Shelby, Miss., in which members of old Company B., Fourth Indiana, are now serving, will send sixteen men to the Overseas Engineer's Regiment, which will soon see service in France. The infantry recruited here is also attached to the 139th. It is not known whether any men who were formerly in Company B were caught in the transfer for early foreign service, because dispatches today only mentioned Indianapolis men transferred.

Better Able To Hold Down Job

Tells How Tanlac Brought Strength Back After He Had Had Pneumonia

"I'm on the job almost every day without fail since I started taking Tanlac but before I felt so bad that I had to lay off as much as one or two days every week," said A. J. Pierson, 935 North Illinois street, Indianapolis.

"I was all run down following an attack of pneumonia before I took Tanlac," Mr. Pierson continued. "I needed something to build me up. My stomach was out of order, too. I was bothered with gas on my stomach and I often felt nauseated."

"Tanlac certainly has brought back my strength but I guess the fact that I work every day now when I used to lay off so often is the best proof of that. My appetite has come back and I feel lots better."

"I think Tanlac is the thing for anybody who feels like I did."

Get Tanlac if you are not feeling right and get it today. You can get Tanlac at F. E. Walcott's Drug Store. (Adv.)

Attend the annual meeting on February 2, 1918, at the Rush county Live Stock Insurance Co. 27413

Wheatless And Meatless Days Don't Necessarily Mean Privation

There are dozens of wheat and meat substitutes that are just as nourishing and just as palatable. It is now necessary that we sell a wheat substitute with all white flour sold. Below we list the substitutes we have in stock.

Bulk Corn Meal per lb.	5c
Barley Flour	4 lbs. 25c, per pound 7 1/2c
Rye Flour	4 lbs. 25c, per pound 7 1/2c
Oat Flour	4 lbs. 25c, per pound 7 1/2c
Steel Cut Oats	4 lbs. 25c, per pound 7 1/2c
Bulk Rolled Oats	4 lbs. 25c, per pound 7 1/2c
Cracked Hominy and Hominy Grits per pound	7c
Flake Hominy	3 lbs. 25c, per pound 9c
Pure Buckwheat Flour	3 lbs. 25c, per pound 9c
Wheat-A-Laxa, a very fine whole wheat flour per bag	30c
We will have Rice Flour in a few days.	
For meat substitutes we offer all kind of Canned Fish, such as Salmon, Sardines and Tuna.	
Salt Herring, fine fat fish per pound	12 1/2c
Victory Bread Every Day.

Russia is Entirely Out of The War, Says Barnard

State Food Administrator Gives Impressions Gained at Conference of Food Men

FIRST OF SERIES OF ARTICLES

(Note—Article 1 of Dr. Harry E. Barnard's summary of disclosures at the recent National Conference of State Food Administrators at Washington. It deals with a situation that is particularly interesting at this time—the complete elimination of Russia as a further influential factor in the war.)

"Russia is out of the war entirely."

SUIT NEW BUT HOLE IN SHOE

Bad Teeth Like Bad Shoes Spoil Fine Dress and Good Looks

PEOPLE NEGLIGENT IN CARE OF MOUTH

Senreco Tooth Paste Powerful To Save the Teeth and Prevent Diseases

"All dressed up with a hole in his shoe," was a bit of sarcasm a girl flung at a young man friend whose entire outfit was new except his punctured shoes. Right enough, too. Either to man or woman a shabby pair of shoes would spoil the appearance of the most elegant garments ever worn.

What about the teeth? Dressed in all the finery you please, if you open your mouth exposing a decayed set of teeth your attractiveness ends right there. That's a hole in the shoe for you. This applies both to men and women. Girls, and young men, you lose half the admiration which would be directed toward you if you have bad teeth. You can't be pleasing with a mouthful of decay. You can't be healthy either. The condition of the teeth have a telling influence on other organs of the body. Bad teeth affect the intestines, stomach, heart, and even the eyes. Medical science shows that bad teeth produce unhealthy conditions all over the body.

With Senreco Tooth Paste at your service—a scientifically prepared preventive of pyorrhea—there's no need of falling a prey to these ills. No need of having a mouthful of decayed teeth. Used regularly on a set of good teeth the deadly germs have little chance to enter. If they should enter they can't exist long under its thorough cleansing properties. As a cleanser and preventive of disease of the teeth it is positively reliable. Advanced cases should be treated by your dentist.

Use Senreco Tooth Paste as a preventive. Ask your dentist if you should not pay all attention to your teeth. Of course we won't say our Senreco Paste will cure pyorrhea. If you already have it, your dentist is the doctor. Even if you are afflicted with this terrible disease Senreco Tooth Paste will help you to get rid of it with your dentist's assistance. But we don't want you to contract any ailment of the mouth and throat, nor does your dentist. A preventive is far better than a cure. Have your teeth with Senreco Tooth Paste and the probability is that you will never have to deal with foul and painful diseases. By taking excellent care of your teeth you may save stomach, intestinal, heart and eye troubles. Take all precaution to keep the teeth clean and do it with Senreco Tooth Paste, the latest discovery of dental science. Sample of Senreco free if you wish it. Senreco Tooth Paste, Cincinnati, Ohio.

She formerly engaged 150 divisions—60 of which were German and 100 Austrian. Russia's collapse means the withdrawal of from 70 to 80 of these divisions from the eastern front to the western front, which are now being moved. The divisions remaining east are all inferior troops. They are made up chiefly of older men, who have lost much of their early discipline through contact with the Russians. The troops being transferred to the French front will probably not equal in sufficient amount fifty divisions of the standard of the troops now in the west. They are not well equipped and are very short of artillery, therefore, it is not to be expected that this additional man power will not count for nearly its full strength in the big drive anticipated from the central powers within the near future. On the west front, France and England are regarded as perhaps twenty percent superior to the Germans in point of guns and munitions. It is apparent also that German manufacturing skill and material are on the decline. Shell fragments coming from the German lines are analyzed weakly. They show falling off in quality and an increased percentage of failure to explode. Guns recently captured are also of an inferior quality and not as carefully made as before.

"In Italy, conditions are favorable to the Austrians, contrary to press reports, the recent successful drive against Italy involved but 4 German divisions and 60 Austrian divisions as against 120 Italian divisions. It was therefore, an Austrian success. The result of which was the capture of 400,000 tons of wheat and important sugar refineries and supplies. If the success continues, Italy's sugar crop and supplies will have vanished before May. In explanation of her reverse, Italy claims she was deserted by her Allies, who failed to supply steel, coal, and especially food. If Italy is able to hold her present line, Germany's plan to take the Northern valleys and flank France west of Nice, will have been defeated. If Italy does not hold, another Serbian tragedy is in prospect."

Amusements

Three men but with a single thought furnish the fun and action of the newest William Fox photoplay "Betrayed," directed by R. A. Walsh. Their single thought is to get married, and they all want the same girl, who is none other than Miriam Cooper herself.

Miss Cooper, for the purposes of the picture, is Carmelita Carrillo, who is just as Mexican as she sounds. Tonight's program, includes Doris Kenyon in "The Hidden Hand" a great mystery play, Lonesome

TAPPING TREES TO BEGIN SOON

Farmers Asked to Make Old Trees Help in Winning The War by Tapping Them Soon

A CALL TO THE ENTIRE STATE

Carefully Following the Suggestion Will Greatly Aid in The Sugar Shortage

This is the season when the old sealy sugar trees standing in Rush county by the hundreds should be made to give their surplus wealth, in the shape of good rich sap, to help in winning the war. The making of hundreds of gallons of molasses, or even of hundreds of pounds of very good sugar is a matter merely of an amount of work in the county.

County Agent Alfred Morrison of Fayette county calling the attention of the farmer's to this opportunity. The idea has taken fast hold of the owners of sugar tree groves. The likelihood is strong, that in the next few weeks, more trees will be tapped than were ever tapped in a single season. The products from the sugar water trees are not only very good and useful in themselves but they will go a long way in relieving the sugar shortage.

That the movement is under way all over the state is indicated in the following word from Lafayette:

Farmers throughout Indiana are preparing to increase the sugar supply of the state by tapping their maple sugar trees, according to reports reaching G. I. Christie of the state food conservation and production committee. With the syrup selling for \$2 a gallon, farmers having from 150 to 175 trees can make \$50 off the product.

Richard Leiber, secretary of the state board of forestry, is urging that the trees be tapped wherever possible.

"The injury to trees from tapping for syrup is negligible," he said. Leiber suggested that if a farmer owns trees and cannot work them himself, it is his patriotic duty to hunt up someone who will procure the sap.

The average production of sap per tree is twenty gallons and it takes about forty of fifty gallons of sap to make one gallon of syrup. Sap is procured by boring a small hole and inserting a spike of either wood or iron.

Farmers have been advised to place their orders for spikes and buckets for catching sap early—as soon as they are able to determine the number needed.

Growing of or production of sorghum molasses, corn syrup and honey is also being urged by state and county councils of defense and other patriotic institutions.

Luke in, "Clubs is Trumps," and the Pathe News feature.

"All work and no play makes Jack a dull boy," is the motto of Director Robert G. Vignola, who has recently directed Pauline Frederick in her Paramount productions. Especially does he believe in this policy when the thermometer soars above ninety in the shade and that shade on the usually cool edges of Lake George, New York. So, during the filming of Pauline Frederick's latest production, "The Hungry Heart," from the novel by David Graham Phillips, to be shown at the Princess tonight, both the star, the director and the members of the cast spent much of their leisure time in the waters of the lake. Director Vignola himself is a famous swimmer and was known at the lake as "The Submarine," for his irrepressible tendency to swim under water, appearing at odd and unexpected intervals at fabulous distances from his starting point.

Victor Moore also appears in a clever comedy, "The Cow Jumped Over the Moon" and the Pathe News Weekly shows many important current events of today. Tomorrow's program includes a romance of France at the time of the German invasion, "In France."

Mrs. Ira Poston of South Harrison street is suffering with an attack of gall stones.

Mrs. Edna Wright is seriously ill at her home in West First street, suffering with pneumonia.

CONDENSED LETTER FROM CAPT. HUMES

Former Rush County Man With Lilly Base Hospital in France Writes His Brother Here

HAD A PLEASANT TRIP OVER

A "condensed letter" written on a French correspondence postal card was received today by E. O. Humes from his brother, Capt. Dolph Humes who, with the Lilly Base hospital, is in training behind the lines in France. Capt. Humes was a for-

mer Rush county boy who has gained prominence in the medical world as an expert surgeon. The notes which contain interesting information follow:

"All O. K. Delightful winter. Comfortable quarters with plenty of well cooked food. In fine shape. Satisfied and very interested in work. Had pleasant trip throughout. People here in fine spirits, hopeful and not complaining. Beautiful country with fine roads and farms which are in excellent condition. Hospital work getting under way. Several units of this district have many acquaintances."

E. A. LEE The Price Is Right

Do You Keep Record of Receipts and Disbursements?

Such a Record is invaluable and indispensable to every business man. At the end of the year it supplies definite information of income and Expenses, and enables one to determine where income may be increased and what item of expense may be saved.

We have purchased a limited number of THE FARMERS RECORD AND ACCOUNT BOOK. These booklets contain forms especially designed for the convenience of the Farmer, and by their use accurate accounts of Receipts and Disbursements may be easily kept.

We invite our Farmer Friends to Call and Procure one of these Booklets before our supply is exhausted. These Booklets also contain information of special value to the farm. We have samples of Rag Doll Seed Corn Testers—Ask for one.
